2. SFY 2022 AFM FEE COLLECTION STATUS

David Welch from the Drinking Water Program (DWP) updated the Commission on the collection status of the Alternate Funding Mechanism (AFM). To date, the DWP has a 99.1 percent collection rate, which is slightly higher than previous years. David gave an update on setting up credit cards as a future payment option.

3. DWP FINANCIAL REPORT

David Welch discussed the DWP Financial Report. David stated that we are currently staying within budget. There was discussion that we might be able to put off increasing the AFM fees, due to additional funding available.

4. DWP GENERAL UPDATES (DWSRF, STAFFING, PFAS, LEAD TESTING IN SCHOOLS)

Amy discussed the new federal drinking water infrastructure funding. Amy also updated the DWC on the lead testing in schools program.

Amy gave an update on the new PFAS testing for all community water systems and non-transient, noncommunity schools and childcare facilities, which needs to be completed by the end of 2022. Amy indicated that there is no funding currently available to help pay for PFAS testing, and that the DWP is working to hire additional positions to help with the extra workload.

Amy updated the DWC on recent staff changes. The DWP has hired Jean Flannery, with the Public Water Inspection Team. She will be taking over District D, Adam Hanson's systems. The DWP is currently interviewing for the Lab Certification Officer position formally held by Jen Jamison.

5. LEGISLATION AND RULE MAKING UPDATE
