FALLS PREVENTION	24
WATER SAFETY	28
VIOLENCE PREVENTION	30
PREVENTION OF INJURIES: OTHER	40
Appendix I Feedback Card	
Appendix II Activity, Program, or Initiative to Be Added	

## **Background:**

Injuries are a preventable public health problem. Reducing injuries, and the resulting disabilities and deaths, is one of the Healthy Maine 2010 goals. Injury and violence prevention and control efforts span from preventing the injury and violence from happening in the first place, to treatment, rehabilitation and management of impairments and disabilities related to injuries.

A solid injury prevention infrastructure in the state health agency is essential to reducing the burden of injury in the state. The Maine Injury Prevention Program (MIPP) has served as the lead agency for injury prevention for children, teens and young adults since 1983. The MIPP is located in the Department of Health and Human Services (DHHS), Division of Family Health (DFH) in the designated state health agency, the Maine Center for Disease Control and Prevention (Maine CDC). In 2005, the DHHS, Maine CDC, and DFH participated in a strategic planning process. At this time, the MIPP moved from an exclusive focus on the youngest state residents to addressing the four leading causes of serious injury and death across the lifespan. A primary role of the Maine Injury Prevention Program is to link our partners and stakeholders to appropriate injury and violence prevention training, data, and resources around the state.

To further inform the development of MIPP's strategic plan revision and next steps, the MIPP convened a symposium on July 23, 2008. The purpose of the symposium was to enhance awareness of the injury problem in Maine, to increase knowledge of the services and resources the program provides and to learn more about the collaborative opportunities with the Public Health Districts and Healthy Maine Partnerships (HMPs).

A report of the symposium findings and recommendations was created and distributed to symposium participants, and other injury and violence prevention stakeholders and partners. A recommendation identified by each symposium work group was *"Map injury prevention efforts across the state; develop an inventory of injury prevention efforts statewide and assess what injury prevention activities are taking place in each district."*

To accomplish this, the MIPP contracted with Oldham Innovative Research to conduct a web-based survey to identify injury and violence prevention activities, programs and initiatives across Maine for people of all ages. Participants were asked to describe injury and violence prevention activities, programs, and initiatives conducted by their organization, as well as other organizations. Seven areas of violence and injury prevention were identified as areas of focus for the data collection:

- **Prevention of injuries from motor vehicle crashes**  
(e.g., teen/elder driving, seat belts, motorcycle helmets, etc.)
- **Suicide prevention**  
(e.g., training of teachers, training of physicians in recognizing warning signs, depression screening, etc.)
- **Unintentional poisoning prevention**  
(e.g., literature for pediatric offices, medication disposal, etc.)
- **Fire safety**  
(e.g., smoke detectors, training about fire hazards in the home, etc.)
- **Falls prevention**  
(e.g., classes for seniors to enhance balance, playground safety, etc.)
- **Water safety**  
(e.g., warning labels on water heaters, brochure about drowning risk in homes, etc.)
- **Violence prevention**  
(e.g., prevention of bullying, child abuse, domestic violence, etc.)

The survey results presented in this report are intended to 1) identify as many injury and violence prevention activities, programs and/or initiatives occurring in the state, and 2) inform our stakeholders and partners of these findings. The information provided in this report is a “snapshot” of Maine’s injury and violence prevention activities, programs and initiatives. It is understood that a variety of activities, programs and initiatives were not reported in the survey. Descriptions of the activities, programs, and initiatives reported are limited in scope and in accuracy to the details provided by survey respondents. It is MIPP’s plan to update this resource on a yearly basis and make it available to injury and violence prevention stakeholders and partners statewide.

By providing leadership and building collaborations with diverse partners at the local and state levels, the MIPP is better equipped to provide a statewide systematic coordination of training, data, and resources to effectively and efficiently address the leading injury problems in the Maine population.

### **Methodology:**

Most of the information included in this report was collected through a questionnaire distributed online through Survey Monkey. Follow-up study was conducted through telephone calls and web-based research to fill in missing details. The basic steps of the resource mapping activity are outlined below:

- The survey was developed by Oldham Innovative Research (OIR) in collaboration with the Maine Injury Prevention Program (MIPP).
- Seven individuals were selected by the MIPP as pilot respondents. They were asked to complete the draft survey and report on:  
a) whether directions were clear; b) whether the survey was able to accommodate the information they wanted to share; and c) anything else they thought would be helpful.
- An email invitation was sent to 63 individuals inviting them to share information about violence and injury prevention activities, programs, and initiative conducted by their organization or any other organization of which they were aware. Each individual was encouraged to make as many entries as they wished.
- Additional communications were made to invite additional entries, as well as to encourage contacts to forward the survey to others.
- Follow-up phone calls and web-based research were used to fill in and confirm details about the reported activities, programs, and initiatives.

## How to Use this Report:

This report is organized around the seven categories mentioned above (e.g., prevention of injuries due to motor vehicle crashes). Within each of these categories, several different entries (i.e., activities, programs, or initiatives) are summarized. To view all the information about a particular entry, the reader will have to review two different tables that are strategically placed on facing pages. The first table provides contact information about the providing organization and a description of the activity, program or initiative. The second table (on the facing page) provides additional details about the entry (e.g., funding source). Each entry is identified by an ID code in the far left column that links the pieces of information for a given entry across the two tables. The ID code is the first letter of the injury and/or violence topic. For example, the category about Suicide Prevention begins on page 11. The first entry in the Suicide Prevention category is a program at Mt. Ararat High School which carries the ID code “S1”. In the first table, on the line labeled “S1”, contact information and a description of the program are provided. In the second table, again on the line labeled “S1”, additional details are provided about the suicide prevention program at Mt. Ararat High School.

## Summary

As the Maine Injury Prevention Program continues to link its partners, at the local, state, and national levels, to training, data, and it is the hope that this Mapping Report will support agencies and communities as they work to integrate injury and violence prevention into their work plans. A feedback card and agency/information card are included in the appendices. Please take a moment to complete and submit to the Maine Injury Prevention Program attention: Katharyn Zwicker [Katharyn.b.zwicker@maine.gov](mailto:Katharyn.b.zwicker@maine.gov) or 286 Water Street, Augusta, Maine 04330. If you have questions, she can be reached at 207-287-5359. It is the MIPP’s plan to update this report on a yearly basis, therefore, it is important to provide your agency’s information.

### Glossary of Terms and Acronyms:

AAA: American Automobile Association
AARP: Association for the Advancement of Retired Persons
C4CY: Communities for Children and Youth
CEVO: Coaching Emergency Vehicle Operator
CPS: Child Passenger Safety
DECH: Down East Community Hospital
DHHS: Maine Department of Health and Human Services
DOE: Maine Department of Education
DSJ: Don't Shake Jake
EDITH: Exit Drills in the Home
EMMC: Eastern Maine Medical Center
EVOC: Emergency Vehicle Operator Course
HIV: Human Immunodeficiency Virus
HPE: Hichborn Physical Education
IRC: Information & Resource Center
ITRT: Intensive Temporary Residential Treatment
JFS: Juvenile Fire Safety
KMCC: Keeping Maine's Children Connected
MAPT: Maine Association for Pupil Transportation
MCD: Medical Care Development
MeCDC: Maine Center for Disease Control and Prevention
MFTE: Maine Fire Training & Education
NAMI: National Alliance on Mental Illness
NAS: Neonatal Abstinence Syndrome
NMMC: Northern Maine Medical Center
OCFS: Office of Child and Family Services
SAT: Student Assistance Teams
SBS: Shaken Baby Syndrome
VA: Veterans Affairs
YCCAC: York County Community Action Corporation
YMCA: Young Men's Christian Alliance
YPM: Youth Promise Maine

	<b>Contact Information</b>	<b>Description of Activity, Program, or Initiative</b>
<b>P1</b>	Northern New England Poison Center MaineHealth Maine Medical Center 22 Bramhall Street Portland, ME 04102 (800) 222-1222 or (207) 662-0111 <a href="http://www.nnepc.org">www.nnepc.org</a>	The Northern New England Poison Center manages poison exposure and information calls from Maine, New Hampshire and Vermont. The center is available 24/7 through the toll-free confidential phone number 1-800-222-1222. The center is staffed with nurses, pharmacists and toxicologists.
<b>P2</b>	Public Health Nursing Maine Centers of Disease Control & Prevention (MeCDC) 13 Prescott Drive Machias, ME 04654 (207) 255-2000	Public Health Nursing conducts home visits for clients who may be prenatal or elderly. We look at the home, ask various questions about safety, give information, etc.
<b>P3</b>	Maine Childhood Lead Poisoning Prevention Program Maine Centers of Disease Control & Prevention (MeCDC) 286 Water Street Augusta, ME 04333 (207) 287-4311 (866) 292-3474 <a href="http://www.maine.gov/dhhs/eohp/lead">www.maine.gov/dhhs/eohp/lead</a>	Education to medical service providers, and the general public on lead poisoning; case management services for children identified with elevated blood lead levels (includes referral for nursing home visits and environmental testing of residences to identify lead hazards where children with elevated blood levels live); Collection and Surveillance of lead poisoning data in Maine.
<b>P4</b>	York County Community Action Corporation (YCCAC) Head Start 6 Spruce Street Sanford, ME 04076 (207) 324-5762 <a href="http://www.yccac.org">www.yccac.org</a>	YCCAC Head Start is an income-eligible childcare program that serves families in York County, ages 0-5. Home-based and center-based programs to 294 - 3-5 year olds and 42 0-3 year olds, including pregnant moms are offered.

## Maine Injury Prevention Program Resource Mapping: Details about Activity, Program, or Initiative

### UNINTENTIONAL POISONING PREVENTION

	Regions of State	Ages Served	Eligibility	Funding Source	How Accessed	Research/Evaluation	Cost	Duration	Funding for Future Years
<b>P1</b>	Statewide	All ages	None	Federal Grants State	In response to an event Public Referral School-based Self-referral	Based on promising practices Evaluated by the organization Has a research component Is evidence-based	No	Since 1974	Yes
<b>P2</b>	Counties: Hancock & Washington	All ages	None	Federal State	In response to an event Public Referral School-based Self-referral	Evaluated by the organization	No	Over 75 years	Yes
<b>P3</b>	Statewide	Birth-5	Age Blood level	Federal	Public Self-referral See note <sup>4</sup>	Based on promising practices Evaluated by the organization Is evidence-based See note <sup>5</sup>	No	Lead Poisoning Control Act 1973	Grant continues through 2011
<b>P4</b>	Counties: York	Birth-5	Age Income Residency	Federal State	Referral Self-referral Public	Evaluated by the organization Based on promising practices	No	Ongoing	To be determined

<sup>4</sup> We receive all blood levels for children under 6 years old daily from the public health lab (HETL). For bloods levels 10ug/dl, we intervene. The intervention is based on the blood level. However, physician offices, parents, often call us. We offer information and resources for families, etc.

<sup>5</sup> We target our resources to those most at-risk for lead poisoning. We have done, and continue to do, extensive work to identify areas where lead poisonings are more frequent through geocoding and mapping of blood lead levels.

## Maine Injury Prevention Program Resource Mapping: Description of Activity, Program, or Initiative

### VIOLENCE PREVENTION

	<b>Contact Information</b>	<b>Description of Activity, Program, or Initiative</b>
<b>V15</b>	Youth Promise Maine (YPM) 597 U.S. Route One P.O. Box 721 Newcastle, ME 04553 (207) 563-6123 <a href="http://www.youthpromise.org">www.youthpromise.org</a>	YPM works with high-risk youth and their families to reduce violence in the home, school and community. Most of our referrals come from the juvenile justice system, some come from homes and school. We program a formal mentored community services program for the youth to pay back the community, which allows the youth to reconnect to their community.
<b>V16</b>	Maine Dept. of Health and Human Services (DHHS) Office of Domestic Violence 221 State Street Augusta, ME 04333 (207) 287-3707 <a href="http://www.maine.gov/dhhs/ocfs">www.maine.gov/dhhs/ocfs</a>	DHHS provides services that deal with domestic violence.
<b>V17</b>	Maine Juvenile Fire Safety Program AKA Maine Juvenile Fire Safety Collaborative Project Southern Maine Community College 2 Fort Road South Portland, ME 04106 (207) 741-5890 <a href="mailto:gdimillo@smccme.edu">gdimillo@smccme.edu</a> <a href="http://www.mainejfs.org">http://www.mainejfs.org</a>	This program supports four Juvenile Fire Safety Collaborative sites already established prior to January 2007; in addition, the project has established collaborative sites in all other counties in Maine. The purpose of a collaborative site is to bring together appropriate departments and agencies (fire, police, mental health, social services, district attorneys, and school health officers) to provide intake and intervention strategies for juveniles involved in fire setting and their families, to reduce overall incidence of juvenile-set fires in Maine. The project also works to change behavior of juveniles involved in fire setting. The collaborative model is one considered best practice for JFS intervention.
<b>V18</b>	The Maine Integrated Youth Health Survey <a href="http://www.maine.gov/mainessa/survey/pdf/MIYHS.pdf">www.maine.gov/mainessa/survey/pdf/MIYHS.pdf</a>	This survey on youth behaviors, risk and protective factors and health conditions is conducted in Maine schools every other year. Data is analyzed at school, county, public health district and state levels for high schools, middle schools (grades 7&8), grades 5&6, and parents of K-3 grades.
<b>V19</b>	Office of the Attorney General Civil Rights Team Project 6 State House Station Augusta, ME 04330 (207) 626-8800 <a href="http://www.state.me.us/ag/">www.state.me.us/ag/</a>	The mission of the Civil Rights Team Project is to increase the safety of high school, middle school and elementary school students and to reduce the incidence of bias-motivated harassment and violence in schools.

## ***Appendix II- Activity, Program, or Initiative Information to be Added***

The Maine Injury Prevention Program (MIPP) thanks you for your help with their effort to identify injury prevention activities, programs, and initiatives across the state of Maine for people of all ages. MIPP contracted with Oldham Innovative Research (OIR) to help with this effort.

This survey collected information about injury prevention activities, programs, or initiatives in each of seven areas. Please share your knowledge about your organization and other organizations. Provide information as completely as you can. If you only have partial information, provide what you know and leave blanks where the information is unknown.

If you wish to have your injury and violence prevention activity, program or initiative added, please complete and return the following form. You may email it to Katharyn Zwicker at [Katharyn.b.zwicker@maine.gov](mailto:Katharyn.b.zwicker@maine.gov) or fax to 207-287-7231 or mail to Maine Injury Prevention Program, 5<sup>th</sup> Floor, 286 Water Street, Augusta, Maine 04333. Thank you.

### **1. Which one category best describes the activity, program, or initiative you are reporting?**

- Prevention of injuries from motor vehicle crashes (e.g., teen/elder driving, seat belts, motorcycle helmets, etc.)
- Suicide prevention (e.g., training of teachers, training of physicians in recognizing warning signs, depression screening, etc.)
- Prevention of unintentional poisoning in and around the home (e.g., literature for pediatric offices, disposal of drugs, etc.)
- Fire safety in and around the home (e.g., smoke detectors, training about fire hazards in the home, etc.)
- Prevention of injuries due to falls (e.g., classes for seniors to enhance balance, playground safety, etc.)
- Water safety in and around the home (e.g., warning labels on water heaters, brochure about drowning risk in homes, etc.)
- Product/equipment safety in and around the home (e.g., evaluation of toys at Christmas, promoting nursery safety, etc.)

### **2. To the extent that you can, please provide the full name, address, telephone number, and website of the organization(s) providing the activity, program, or initiative.**

---

---

---

---
