

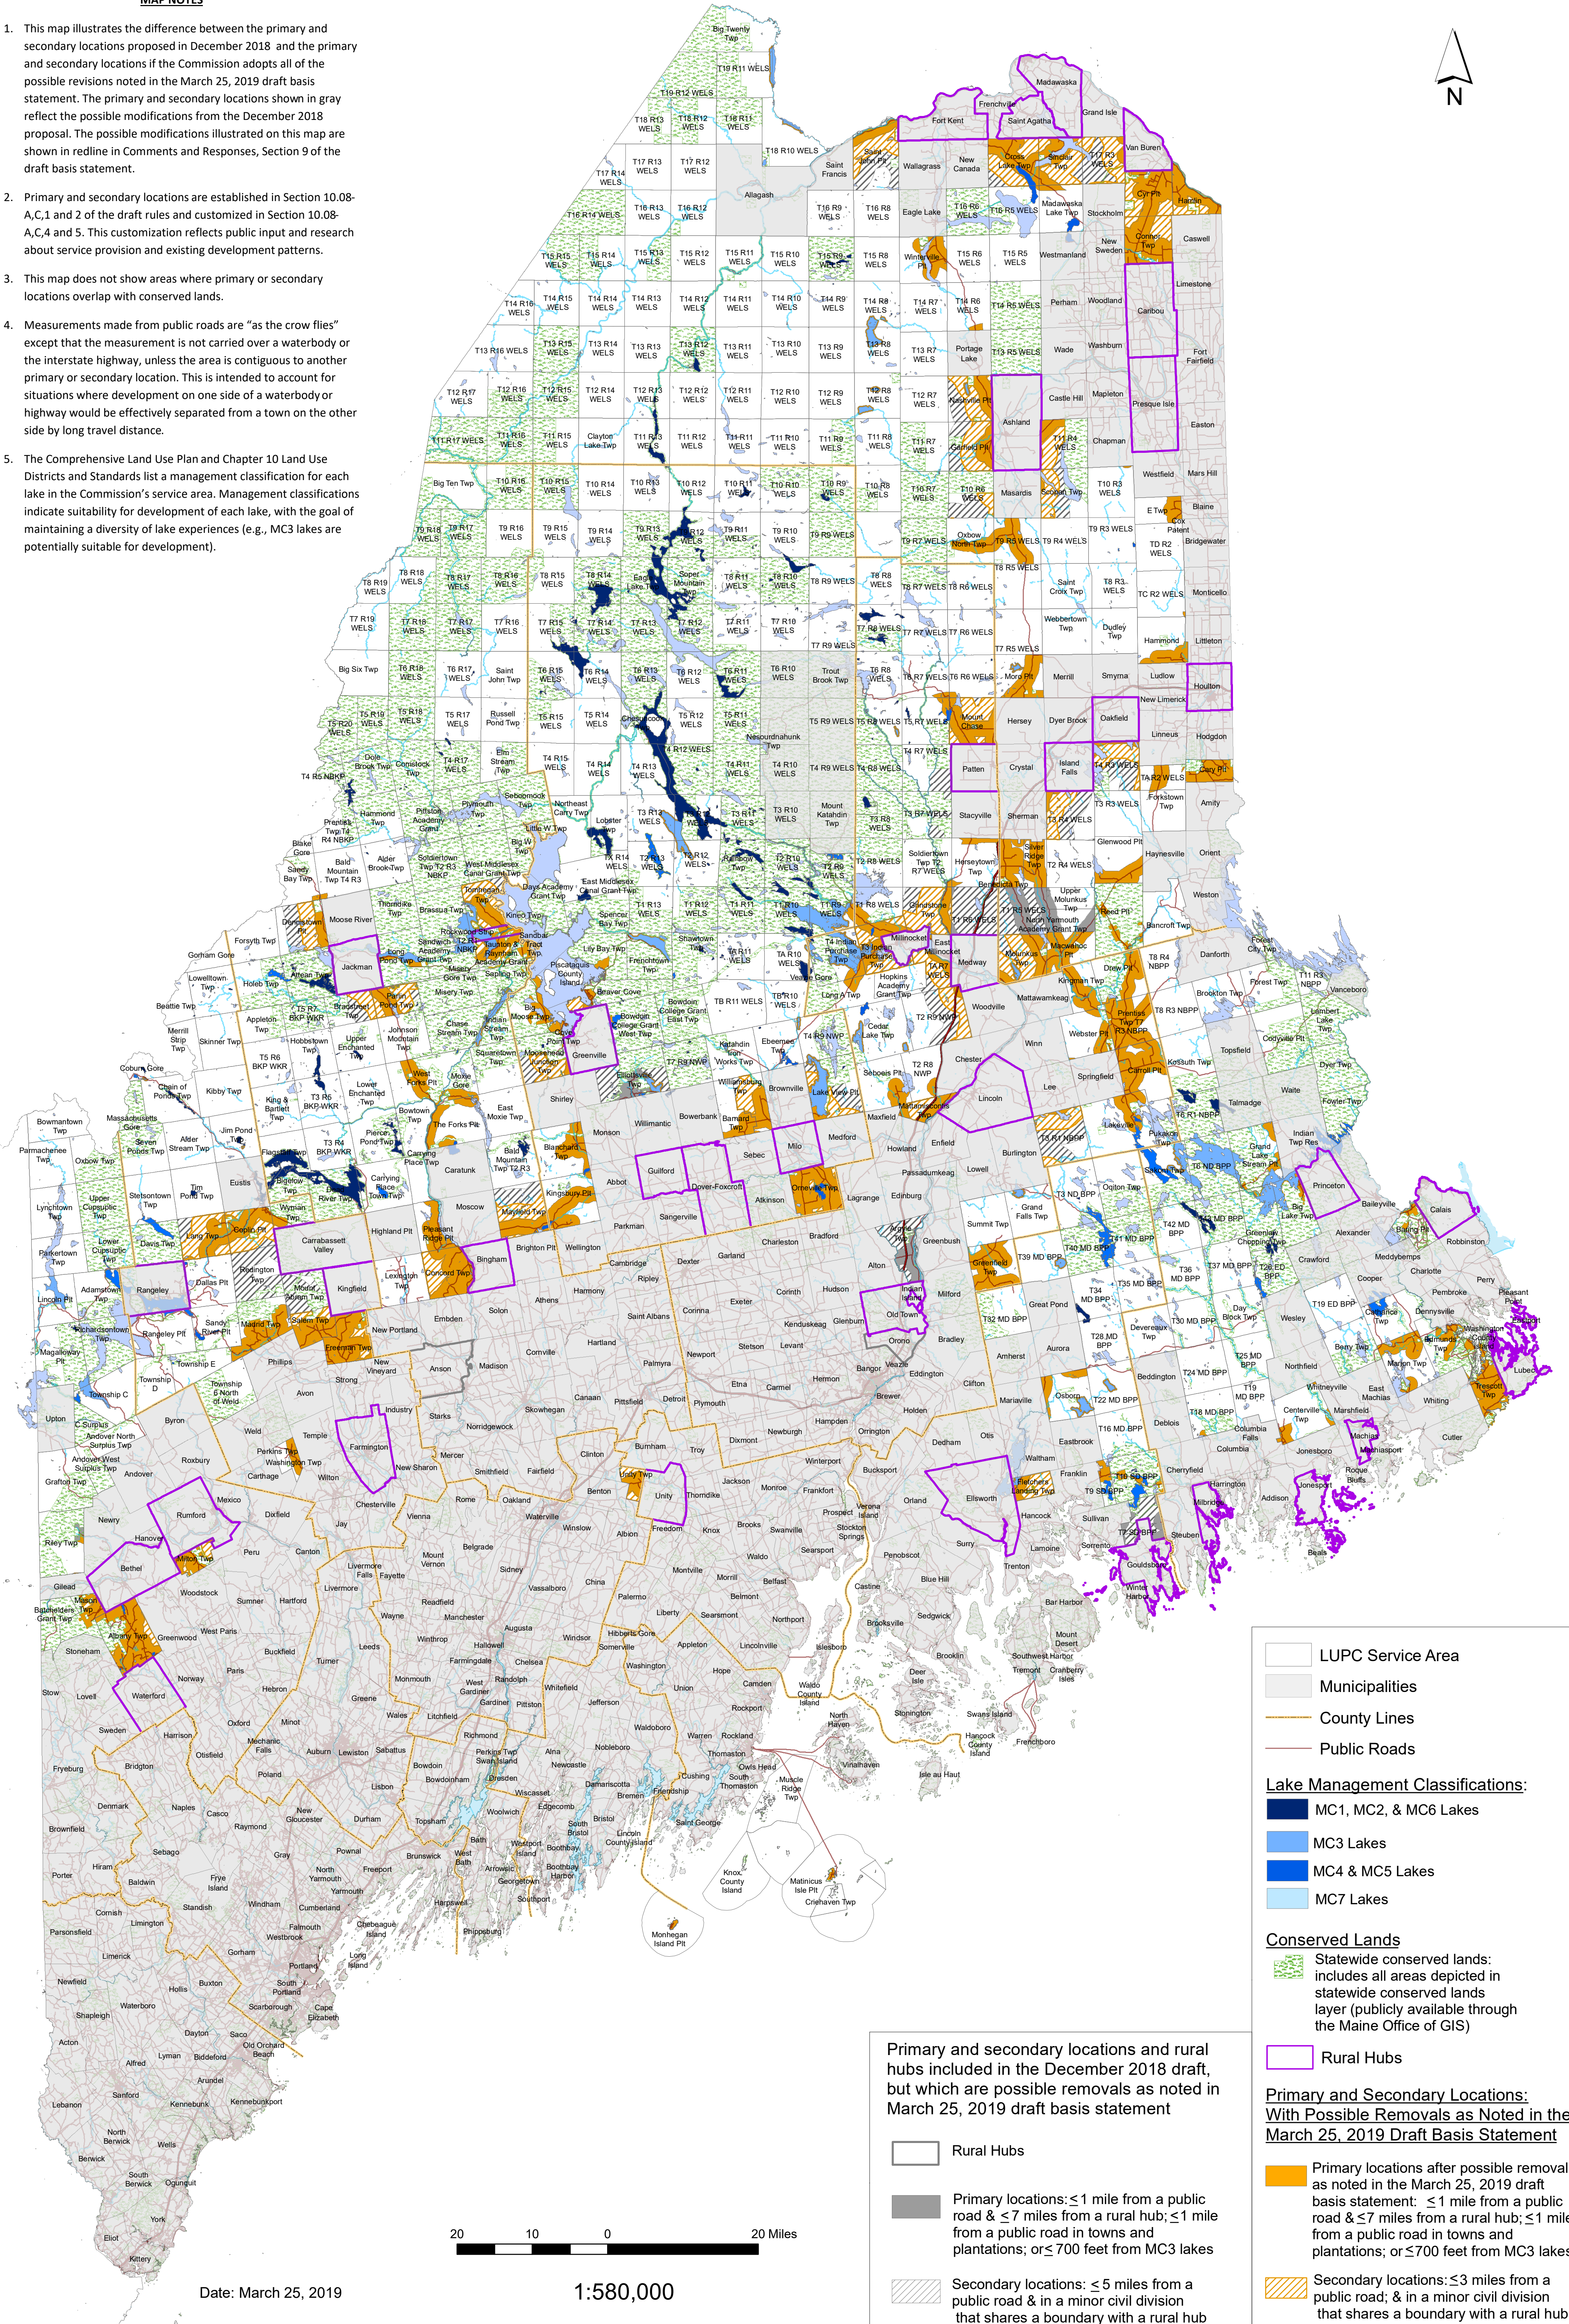

# Map 1: Primary and Secondary Locations, Comparison of Possible Removals and December 2018 Draft

## MAP NOTES

1. This map illustrates the difference between the primary and secondary locations proposed in December 2018 and the primary and secondary locations if the Commission adopts all of the possible revisions noted in the March 25, 2019 draft basis statement. The primary and secondary locations shown in gray reflect the possible modifications from the December 2018 proposal. The possible modifications illustrated on this map are shown in redline in Comments and Responses, Section 9 of the draft basis statement.
2. Primary and secondary locations are established in Section 10.08-A,C,1 and 2 of the draft rules and customized in Section 10.08-A,C,4 and 5. This customization reflects public input and research about service provision and existing development patterns.
3. This map does not show areas where primary or secondary locations overlap with conserved lands.
4. Measurements made from public roads are "as the crow flies" except that the measurement is not carried over a waterbody or the interstate highway, unless the area is contiguous to another primary or secondary location. This is intended to account for situations where development on one side of a waterbody or highway would be effectively separated from a town on the other side by long travel distance.
5. The Comprehensive Land Use Plan and Chapter 10 Land Use Districts and Standards list a management classification for each lake in the Commission's service area. Management classifications indicate suitability for development of each lake, with the goal of maintaining a diversity of lake experiences (e.g., MC3 lakes are potentially suitable for development).

**LUPC Service Area**

**Municipalities**

**County Lines**

**Public Roads**

**Lake Management Classifications:**

- MC1, MC2, & MC6 Lakes
- MC3 Lakes
- MC4 & MC5 Lakes
- MC7 Lakes

**Conserved Lands**

Statewide conserved lands: includes all areas depicted in statewide conserved lands layer (publicly available through the Maine Office of GIS)

**Rural Hubs**

**Primary and Secondary Locations: With Possible Removals as Noted in the March 25, 2019 Draft Basis Statement**

- Primary locations after possible removals as noted in the March 25, 2019 draft basis statement: ≤ 1 mile from a public road & ≤ 7 miles from a rural hub; ≤ 1 mile from a public road in towns and plantations; or ≤ 700 feet from MC3 lakes
- Secondary locations: ≤ 3 miles from a public road; & in a minor civil division that shares a boundary with a rural hub

**Primary and secondary locations and rural hubs included in the December 2018 draft, but which are possible removals as noted in March 25, 2019 draft basis statement**

- Rural Hubs
- Primary locations: ≤ 1 mile from a public road & ≤ 7 miles from a rural hub; ≤ 1 mile from a public road in towns and plantations; or ≤ 700 feet from MC3 lakes
- Secondary locations: ≤ 5 miles from a public road & in a minor civil division that shares a boundary with a rural hub

Date: March 25, 2019
