Award Justification Statement
RFP# 202411204 Comprehensive Classification Review, Analysis and
Recommendations

I. Summary

The State of Maine is seeking proposals for a comprehensive classification review, analysis, and recommendations of the executive branch employees to serve as the foundation for the 10-year review of the classification plan as required by statute. The state is seeking proposals to identify strengths and weaknesses of the current classification system, review current positions performing similar levels of work, and provide recommendations as to changes and/or improvements to the classification system. Five Bidders responded to the RFP:

ATZ Solutions
Deloitte Consulting LLP
Gallagher Benefit Services
Mercer US LLC
The Segal Company

II. Evaluation Process

The RFP Coordinator and Facilitator put together packets from the bidders which were sent to the five evaluation team members in alphabetical order for review. Each team member reviewed the proposal from each bidder, in alphabetical order, and provided individual notes to the coordinator. The team then met together to score each proposal in alphabetical order. A team consensus was reached as to each score for each proposal.

The evaluation team was comprised of the Director of Compliance, a Senior Labor Relations Specialist, a Policy Development Specialist, a Lead Human Resources Analyst, and a Director of Communications. The qualifications of this team consist of years of experience in compensation and classification matters, a thorough understanding of the classification system, and work with outside vendors on other legislatively mandated projects. This team is comprised of individuals who work within the states classification system on a daily basis.

III. Qualifications & Experience

- Previous projects that involved streamlining classifications.

- Understanding and acknowledging the state’s commitment to maintain the current hay methodology.
- Provided a clear description of how classification levels build and should be built upon.
- Provide a classification title glossary and classification structure design workshops.

IV. Proposed Services

- Provided a comprehensive explanation of deliverables and a detailed implementation plan.
- Provided information on designing workshops and helping with change management.
- Provided the steps of services to be completed and the order in which they will be completed in.
- Clearly explained how they will identify strengths and weaknesses of the current classification system and detailed how they will do that, as well as confirming the review of necessary documents.

V. Cost Proposal

- The selected bidder has the second highest cost proposal and provided a detailed budget narrative.

VI. Conclusion

Out of 100 points, the Evaluation Team awarded Deloitte Consulting LLP a score of 75.19. The selected bidder provided in depth descriptions of past projects they had completed that directly related to the state’s requirements for this project. The past projects spoke about skills and qualifications of the team, how a strategy was implemented, how the project was carried out, and the recommendations provided. The overview of the organization clearly outlined 30 years of experience in classification consulting services and outlined their previous work with the State of Maine. Under proposed services, this bidder clearly outlined their approach which included methodologies and resources that would be utilized. The bidder broke out the services in phases, addressing each one of the state’s requirements, and how each phase will be completed. In addition, the phases had a clear expected delivery date that aligned with the state’s deadline for the overall project.

- Has experience with data analysis but is of sales trends rather than text-based classification systems.
- +Previous work with government entities.
- Past projects are not classification related.
- Technical language without explanation left reviewers unclear if their systems are compatible with those of the State.
- Stated that recommendations would align with hay but did not explain how.
- Heavy emphasis on technology

Subcontractors

- Referenced subcontractors but did not affirmatively state whether they would be used or not.

- Appeared to just be requirements from the RFP reworded and reformatted.
- Not clear what their plan of action would be.
- Highly technical, not clear how their system would talk to ours.
- Using AI is a concern; the State of Maine is only just starting to use AI and it's not something we asked for. Unsure if their use of AI will be approved by Maine IT in accordance with the Maine IT GenAI policy.
- Does not explain how they will review and analyze the Segal report.
- The desired outcomes are not really clear.
- Did not provide details on development and implementation of phases, which month they will be completed in, and who would complete them.

I. Overview of the Organization

- +Has worked with the State of Maine for more than 40 years.
- +Has been providing classification services for 30 years
- +Previous projects were streamlining classifications.
- +They understand that stakeholder buy in is a challenge and plan to assist the state with it.
- +They understand that we are committed to staying with Hay and workday.
- +Love the idea of classification structure design workshops.
- +A classification title glossary is something we have been discussing.
- +Provided a clear description of how classification levels are built and should be built upon.
- +The three projects were spot on-including the classification element.
- +Great understanding of complex systems.
- +Extremely detailed

Subcontractors

- +Not planning to use subcontractors

I. Overview of the Organization

- Provided almost no information on previous projects; only one project mentioned classification at all.
- Didn't provide what was requested regarding brief descriptions of previous projects.
- Very little elaboration to help us understand their skills and qualifications to do the job.
- +One previous statewide review project.
- +Description of work plan.

Subcontractors

- +Not planning to use subcontractors

Organizational Chart

- Limited and does not describe who would be assigned to our project.
- Lots of experience with Employee and Labor Relations and Recruitment but not so much on the classification side. Unclear if they have any experience in classification review.

Litigation

- Unclear whether there is ongoing/previous litigation involving bidder.

Financial

- +Financial statement provided, and bidder appears viable.

Evaluation Team Comments:

- Not clear what they will provide and how it will be accomplished.
- It seems they have a concern about delivery time and that causes reviewers' concern.
- Continued mention of "fair pay" is not applicable to scope of requested review.
- No mention of reviewing Segal report.
- The deliverables and timeline overlap which is concerning; there are no dates included.
- Phase #2 is the entire time.
- Unclear what resources they will use to deliver and no mention of who would be responsible for which element of the project.
- Proposal appears to be focused on determining if individual employees are properly qualified which is outside the scope of the requested review.
- No mention of review of current structure.
- No mention of review of admin unit study.
- No mention of consideration of career ladders when performing analysis or making recommendations.
- +Addresses titling conventions and plans to provide recommendations on how to maintain recommended changes going forward.
- No mention of IT compliance.
- Interviewing 12,000 employees will be very time-consuming and is beyond the scope of the requested review.

Evaluation Team Comments:

I. Overview of the Organization

- +Has some experience in job classification systems work.
- Previous project descriptions are brief and focused on job classification comparison to external market rather than internal consolidation to streamline a classification.
- +Vendor may understand the Segal recommendations more than others due to employment of former Segal employee.
- +Experience performing statewide classification reviews.

Organizational Chart

- +Extensive description on each person.
- +Each team member had an abundant amount of experience.

Litigation

- Unclear whether there is current or previous litigation involving this bidder.

Financial

- +Financial statement is provided, and bidder appears viable.

Evaluation Team Comments:

- +Mercer has a comprehensive job library and partners with industry-leading skills databases.
- Concern that they may have a one-size-fits-all system and whether their recommendation will be flexible based on our Hay system and upcoming Workday implementation.
- The proposed five phases of the project lack additional detail.
- The proposed services are a copy/paste of the RFP.
- +Identified who would be assigned to which phase and included a start and end date.
- The end date of July is very concerning and not realistic given our team's projected bandwidth.

Evaluation Team Comments:

I. Overview of the Organization

- The job evaluation recommendation recommends a point factor system and the State is committed to the Hay methodology.
- Two of the three projects are compensation driven, and did not include classification.
- +Has conducted classification reviews previously.
- Reviewing solely an entity's classification system appears to be a small part of what they offer for services. Did not describe their classification analysis experience well.

Subcontractors

- +Does not plan to use subcontractors.

Organization Chart

- +Clear organizational chart-professional backgrounds included.

Litigation

- +Litigation information provided.

Financial

- +Financial statement provided and appears viable.

Insurance

- +Certification of insurance provided.

Organization Qualifications and Experience

1. Overview of the Organization

ATZ Solution LLC is a dynamic and innovative small business specializing in Data Analysis, Data Science, Machine Learning, and Artificial Intelligence.

Project 1.- dynamic website and database

Project 2 – backend web development and data engineering

Project 3 – data analysis

Heavy technology experience using machine learning and AI – unsure how will translate to classification system. None of their three listed projects included any classification work.

2. Subcontractors

- Not listed.

3. Organizational Chart

- Non-specific team and rolls listed

4. Litigation

5. Financial Viability

Proposed Services

1. Services to be Provided – Scope of Services

Their scope of services/work included detailed information on proposed technology systems architecture, and technology details specifically mentioning machine learning. Mentions seamless integration with Workday HRMS and existing databases, not Hay system specifically – although later they say that recommendations *would align* with Hay system. Concern with MaineIT compliance.

A. Current System Review:

They expressed understanding of this requirement but provided no other details

B. Classification Review:

- No real specifics for this section. In particular there was no mention of their understanding of challenges of the complexities of state govt. positions and different salary schedules and job responsibilities. Concern that too much simplification to make all fit into machine learning structure.

Individual Evaluator Comments:

Overview of the Organization

- Present, does have the qualifications to perform data analysis but doesn't have any specific experience with classification systems. Previous projects included construction of websites and databases, and the analysis of sales data. Again, no documented experience with classification systems

Subcontractors

A. Current System Review:

- Light on detail. Much of the proposal is just the four above bullets parroted back. For example, it mentions reviewing the Segal report but doesn't provide any information about what it plans to do with that review. Compare its recommendations to those this bidder comes up with? Identify deficiencies in process or methodology and use those to better this review?

- No mention of comparable employers

B. Classification Review:

- Does not address B(1)(ii)
- B(2), no discussion of the bidder's knowledge of current market demands or best practices.
- B(3), no discussion of evaluation of current methodology
- B(4), no mention of review of Admin unit study
- B(5), no mention of review taking into account dissimilar salary schedules

Produce one or more reports addressing the above objectives (A-B)

+ The report will include the report itself, as well as visualizations, training materials, and a roadmap with timelines and costs.

IT Policies

- The bidder asserts it will follow Maine IT policies, but I am concerned that the heavy reliance on machine learning may cause delays while compliance with Maine IT's Generative AI policy is reviewed. The project team does appear to include analysts who will provide a level of human review as required by Maine IT, but compliance with other requirements of the policy is unclear. While the Maine IT GenAI policy was not specifically listed in the RFP, compliance with all Maine IT policies is required.

- (+) *All three projects did involve data analysis with a goal to streamline operations.*
- 5. *Certificate of Liability*
 - (+) *The vendor included their certificate of liability.*

II. Project Overview

1. Key Objectives

- (+) *Clearly outlined and summarized the key objectives for this project.*

2. Scope of Work

- *Current System Review: (+) clearly summarized the requirement of analyzing the existing classification system, reviewing the Segal Consulting Report from 2020, and assessing the integration with the Workday HRMS.*
- *Classification Review and Recommendations: (+) clearly summarized using data-driven techniques (which the vendor has experience in from projects listed above) to make recommendations on classifications, analyze career ladders, ensure the recommendations align with hay methodology, and review positions for inequities. (-) The vendor did not mention experience in reviewing classification systems in previous work.*
- *Deliverables: (+) Will write a comprehensive report summarizing methodologies, findings and recommendations. Will crosswalk documents mapping current classifications to proposed classifications (+). Described implementation recommendations with timeline, costs, and impacts (+). Executive summaries for all reports exceeding 25 pages.*
- *Stakeholder Engagement: (+) will collaborate with labor-management committee through monthly meetings and work sessions. (+) Will conduct a minimum of 3 final presentations summarizing recommendations.*
- *IT Compliance: (+) Will adhere to the State's IT policies and utilize state-provisioned devices and secure VPNs for project-related activities.*
- **(-) Did not explain in detail how the scope of work will accomplish individual tasks and how the outcome of services will be achieved.*

3. Proposed Technology for Project

- *Machine Learning Frameworks: (+) described two frameworks to develop classification models. Not familiar with either framework.*

Described one framework for data processing and analysis. Not familiar with this framework.

- *Data management: MySQL for data storage and Azure or AWS for cloud infrastructure. (-) Did not discuss how these will relate to the project/what phase of the project.*
- *Integration: APIs for integration with workday and existing databases. (+) API's allow systems to communicate with each other.*
- *Security: (+) Will implement encryption protocols to adhere to figurations.*
- ** (-) Did not explain in detail how these proposed technologies will accomplish tasks.*
- ** (+) Provided with a technology framework flowchart.*

4. Proposed System Architecture

- *Data Flow: (+) provided where classification data will be inputted, how it will be processed, and where it will be outputted. (-) Did not provide enough detail on how these data flow processes will work in relation to desired outcomes.*
- *Scalability: (+) provided what infrastructure will be used to support the analysis and large data sets. (-) Did not explain how the infrastructure will work in relation to desired outcomes.*
- *Security: (+) will provide end-to-end encryption and compliance with State IT policies.*
- ** (-) Provided a proposed system architecture flowchart, but did not explain in detail the processes the flow chart represents.*

5. Implementation – Work Plan. Development Phases & Timelines

- *Phases & Milestones: provided phases of completion in order with duration and key milestones for that period. (-) Did not provide in detail which program development and implementation tasks will be completed, which month they will be completed, and who will be responsible for them.*

6. SDLC Life Cycle Model Explanation

- *Explained how the project will follow Agile SLDC (-) (did not provide acronym for what this stands for).*
- *(-) Provided the framework for progress and stakeholder collaboration, but did not define who would be responsible for what, or when these framework phases would be taking place.*

9. *Quality Assurance & Testing*
- (-) *Described accuracy testing, accessibility, and security, but did not explain who is responsible for quality assurance and testing and when it relates to the project timeline.*
10. *Training and Documentation*
- (-) *Described two training sessions on tool usage and compliance, but not who would provide the training, who would be given the training, and when the training would be given.*
 - (-) *Described providing user guides for systems management, but not who would provide the user guides, when they would be provided, and what they would be used for in relation to the project.*
 - (-) *Described providing technical documentation to include deployment workflows and troubleshooting guidelines, but did not explain what these would be needed for, if there's particular training for them and who would provide it, and when it would be provided.*
11. *Post-Launch Support & Maintenance*
- (-) *Described initial support is two months of issue resolution and adjustments, but did not explain what this includes specifically and who would be providing the support.*
 - (-) *Described providing ongoing maintenance such as quarterly updates and model retraining, but did not explain who would be providing this and what the updates were to and what the model retraining entails.*
 - (-) *Described a feedback loop for continuous improvement based on user input, but did not explain how this would function.*
12. *Terms and Assumptions*
- (-) *Gave the contract duration period, but again did not provide specifics as to the timeline chart, who is responsible for what, and which month tasks will be completed in.*
 - (-) *Described an assumption of timely access to data and resources provided by the state, but did not provide detailed information on*

1. Services to be Provided – Scope of Services

A. Current System Review:

+/- Has proprietary job library and skills library – unsure if dovetails with Hay System

If can translate, could be valuable

The MJL is the most comprehensive job catalog in the US. It includes detailed descriptions of each Job Family, Sub-Family, Specialization, and Career Level.

We partner with industry-leading skill databases that constantly scan millions of online job profiles and descriptions to obtain key skills information.

RFP TITLE: Comprehensive Classification Review, Analysis and Recommendation

BIDDER NAME: Mercer US LLC

DATE: February 13, 2025

EVALUATOR NAME: Sharon Huntley

EVALUATOR DEPARTMENT: Department of Administrative and Financial Services

(-) unclear if their system be able to translate to those within our systems – Hay and Workday

(-) they outline five step process but provide few details including what they foresee for “ongoing administration maintenance and governance,” and “communications and change management” – things not spelled out in our project requirements

C. IT Policies:

(-) Does not provide any mention of compliance with MaineIT

2. Implementation - Work Plan

RFP TITLE: Comprehensive Classification Review, Analysis and Recommendation

BIDDER NAME: Mercer US LLC

DATE: 2/12/2025

EVALUATOR NAME: Scott Helmke

EVALUATOR DEPARTMENT: Department of Administrative and Financial Services

+ Appears to have a well-ordered format for classification systems.

- Unclear if bidder will recommend a complete overhaul to fit with their format, or whether bidder can provide more tailored recommendations.

- States that these four things will be done but provides no detail as to scope. For example, bidder will review the Sega report but does not specify how they may use the information gained in the review.

+ Does appear to have access to large classification database so bidder is likely able to suggest best practices.

B. Classification Review:

- Bidder pasted the above language into their proposal with no additional explanation or detail.

Produce one or more reports addressing the above objectives (A-B)

- Bidder will produce a report but no information regarding methodologies is provided.

IT Policies

- Bidder does mention that data will be uploaded to Mercer's secure SharePoint site but no other mention of IT compliance.

Preliminary Information

- 1. Proposal Cover Page**
- 2. Responsible Bidder Certification**

+ both provided

Organization Qualifications and Experience

- 1. Overview of the Organization**

Project 1 – statewide salary survey

Project 2 – Conducted a comprehensive classification compensation study, agency-wide;

Project 3 - conducted a comprehensive statewide total compensation study for approximately 15,000 employees, analyzing 404 benchmark jobs. – state of Alaska

+ experience specifically with Maine State Govt. classifications

+ job classification analysis specifically one of their offerings

+/- job evaluation system design and implementation – Segal has a proprietary method (Segal Evaluator) using 8 specific factors – unsure if integrates with Hay system and Workday. Valuable if yes, not useful if not.

+ two of the three projects are specifically compensation driven, the third includes both classification and compensation

- 2. Subcontractors**

No subcontractors will be used

- 3. Organizational Chart**

+ Clear organization chart with roles and responsibilities identified. Good background on each team member

B. Classification Review:

+ Reiterated all steps above – agree to deliver

+ Agreed on all Deliverables and Expectations

+ spelled out three-step process with details: project initiation, classification analysis and presenting final results.

+ aware of sensitivity for interaction with labor management and BHR input

+ will discuss prior study to determined what worked well and improve what did not (acknowledgement for improvement)

+ desired future state and gap analysis

+/- built a model to facilitate job classifications (is this the Segal Evaluator?) – Talks about working with Workday implementation but not the Hay system.

“Segal has recent, applicable experience providing services similar to what the State has requested above, and we’ve built a model to facilitate the comparison and consolidation of job classifications.”

AGREEMENT AND DISCLOSURE STATEMENT
RFP #: 202411204

RFP TITLE: Comprehensive Classification Review, Analysis and Recommendations

I, Kelsie Lee accept the offer to become a member of the Request for Proposals (RFP) Evaluation Team for the State of Maine Department of Administrative and Financial Service, Bureau of Human Resources. I do hereby accept the terms set forth in this agreement AND hereby disclose any affiliation or relationship I may have in connection with a bidder who has submitted a proposal to this RFP.

Neither I nor any member of my immediate family have a personal or financial interest, direct or indirect, in the bidders whose proposals I will be reviewing. "Interest" may include, but is not limited to: current or former ownership in the bidder's company; current or former Board membership; current or former employment with the bidder; current or former personal contractual relationship with the bidder (example: paid consultant); and/or current or former relationship to a bidder's official which could reasonably be construed to constitute a conflict of interest (personal relationships may be perceived by the public as a potential conflict of interest).

I have not advised, consulted with or assisted any bidder in the preparation of any proposal submitted in response to this RFP nor have I submitted a letter of support or similar endorsement.

I understand and agree that the evaluation process is to be conducted in an impartial manner without bias or prejudice. In this regard, I hereby certify that, to the best of my knowledge, there are no circumstances that would reasonably support a good faith charge of bias. I further understand that in the event a good faith charge of bias is made, it will rest with me to decide whether I should be disqualified from participation in the evaluation process.

I agree to hold confidential all information related to the contents of Requests for Proposals presented during the review process until such time as the Department formally releases the award decision notices for public distribution.

AGREEMENT AND DISCLOSURE STATEMENT
RFP #: 202411204

RFP TITLE: Comprehensive Classification Review, Analysis and Recommendations

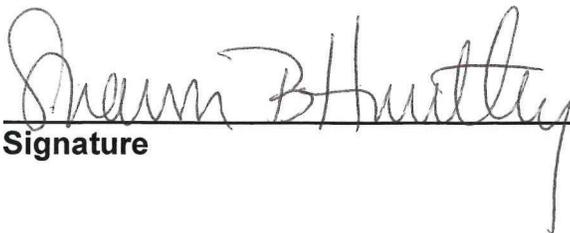

I, Sharon Huntley accept the offer to become a member of the Request for Proposals (RFP) Evaluation Team for the State of Maine Department of Administrative and Financial Service, Bureau of Human Resources. I do hereby accept the terms set forth in this agreement AND hereby disclose any affiliation or relationship I may have in connection with a bidder who has submitted a proposal to this RFP.

Neither I nor any member of my immediate family have a personal or financial interest, direct or indirect, in the bidders whose proposals I will be reviewing. "Interest" may include, but is not limited to: current or former ownership in the bidder's company; current or former Board membership; current or former employment with the bidder; current or former personal contractual relationship with the bidder (example: paid consultant); and/or current or former relationship to a bidder's official which could reasonably be construed to constitute a conflict of interest (personal relationships may be perceived by the public as a potential conflict of interest).

I have not advised, consulted with or assisted any bidder in the preparation of any proposal submitted in response to this RFP nor have I submitted a letter of support or similar endorsement.

I understand and agree that the evaluation process is to be conducted in an impartial manner without bias or prejudice. In this regard, I hereby certify that, to the best of my knowledge, there are no circumstances that would reasonably support a good faith charge of bias. I further understand that in the event a good faith charge of bias is made, it will rest with me to decide whether I should be disqualified from participation in the evaluation process.

I agree to hold confidential all information related to the contents of Requests for Proposals presented during the review process until such time as the Department formally releases the award decision notices for public distribution.
