DEPARTMENT ORDER

Eurovia Atlantic Coast LLC		Departmental
d/b/a Dirigo Materials		Findings of Fact and Order
Penobscot County		Air Emission License
Bangor, Maine		Amendment #1
A-449-71-N-M		

Findings of Fact

After review of the air emission license amendment application, staff investigation reports, and other documents in the applicant’s file in the Bureau of Air Quality, pursuant to 38 Maine Revised Statutes (M.R.S.) § 344 and § 590, the Maine Department of Environmental Protection (Department) finds the following facts:

I. Registration

A. Introduction

Eurovia Atlantic Coast LLC d/b/a Dirigo Materials (Eurovia) was issued Air Emission License A-449-71-M-R on August 29, 2022, for the operation of emission sources associated with their rock crushing and gravel facility. Eurovia has requested a minor revision to their license in order to remove CAT Gen from this Air Emission License.

The main office is located at 953 Odlin Road, Bangor, Maine.

B. Emission Equipment

The following equipment is addressed in this air emission license amendment:

Engine

Unit ID	Max. Capacity (MMBtu/hr)	Max. Firing Rate (gal/hr)	Fuel Type	Date of Manuf.
<i>CAT Gen *</i>	<i>1.2</i>	<i>14.9</i>	<i>Distillate Fuel</i>	<i>1997</i>

* Removed from license

C. Application Classification

All rules, regulations, or statutes referenced in this air emission license refer to the amended version in effect as of the date this license was issued.

This amendment will not increase licensed emissions of any pollutant. Therefore, this amendment is determined to be a minor revision and has been processed as such.

D. Facility Classification

The facility is licensed as follows:

- As a natural minor source of criteria pollutants, because no license restrictions are necessary to keep facility emissions below major source thresholds for criteria pollutants; and
- As an area source of hazardous air pollutants (HAP), because the licensed emissions are below the major source thresholds for HAP.

II. Best Practical Treatment (BPT)

A. Introduction

In order to receive a license, the applicant must control emissions from each unit to a level considered by the Department to represent Best Practical Treatment (BPT), as defined in *Definitions Regulation*, 06-096 C.M.R. ch. 100. Separate control requirement categories exist for new and existing equipment.

BPT for existing emissions equipment means that method which controls or reduces emissions to the lowest possible level considering:

- the existing state of technology;
- the effectiveness of available alternatives for reducing emissions from the source being considered; and
- the economic feasibility for the type of establishment involved.

B. Generator

Eurovia recently renewed a different air emission license, which included the transfer of CAT Gen from this air emission license to a different work site, where it was added to that license. CAT Gen is considered removed from this Air Emission License and will not be addressed further.

C. Annual Emissions

This license amendment will not change the facility's licensed annual emissions.

**Departmental
Findings of Fact and Order
Air Emission License
Amendment #1**

Order

Based on the above Findings and subject to conditions listed below, the Department concludes that the emissions from this source:

- will receive Best Practical Treatment,
- will not violate applicable emission standards, and
- will not violate applicable ambient air quality standards in conjunction with emissions from other sources.

The Department hereby grants Air Emission License Amendment A-449-71-N-M subject to the conditions found in Air Emission License A-449-71-M-R and the following conditions.

Severability. The invalidity or unenforceability of any provision of this License Amendment or part thereof shall not affect the remainder of the provision or any other provisions. This License Amendment shall be construed and enforced in all respects as if such invalid or unenforceable provision or part thereof had been omitted.

Specific Conditions

The following shall replace Conditions (18)(A) and (18)(C) of Air Emission License A-449-71-M-R:

(18) Generator

A. Fuel Use

1. Cat 3412 is licensed to fire distillate fuel with a maximum sulfur content not to exceed 15 ppm (0.0015% sulfur by weight). Compliance shall be demonstrated by fuel delivery receipts from the supplier, fuel supplier certification, certificate of analysis, or testing of fuel in the tank on-site. [06-096 C.M.R. ch. 115, BPT]
2. Total fuel use for Cat 3412 shall not exceed 80,000 gal/yr of distillate fuel, regardless of where the unit is operated. Compliance shall be demonstrated by fuel records from the supplier showing the quantity and type of fuel delivered. Records of annual fuel use shall be kept on a monthly and calendar year basis. [06-096 C.M.R. ch. 115, BPT]

C. Emissions shall not exceed the following [06-096 C.M.R. ch. 115, BPT]:

Unit	PM (lb/hr)	PM₁₀ (lb/hr)	SO₂ (lb/hr)	NO_x (lb/hr)	CO (lb/hr)	VOC (lb/hr)
Cat 3412	0.46	0.46	0.01	16.76	3.61	1.33

Done and Dated in Augusta, Maine this 13th day of MAY, 2026.

Department of Environmental Protection

BY: _____

for Melanie Loyzim, Commissioner

The term of this license amendment shall be ten (10) years from the issuance of Air Emission License A-449-71-M-R (issued 08/29/2022).

[Note: If a renewal application, determined as complete by the Department, is submitted prior to expiration of this license, then pursuant to Title 5 M.R.S. § 10002, all terms and conditions of the license shall remain in effect until the Department takes final action on the license renewal application.]

Please note attached sheet for guidance on appeal procedures.

Date of initial receipt of application: _____ April 16, 2026

Date of application acceptance: _____ April 21, 2026

This Order prepared by Zac Hicks, Bureau of Air Quality.
