Question or Comment

I am gravely concerned with the enormous size and the negative ecological impacts of the proposed Nordic Aquafarms, Inc. fish factory on Penobscot Bay and mid-coast Maine.

One of my greatest fears is with the proposed excavation plan is blasting of the earth to remove ledge/bedrock. Wildlife along the Little River Trail will be directly impacted by this proposed nightmare. My family often takes walks along this trail and it is unthinkable that the City of Belfast and the State of Maine would allow such permanent damage and destruction to this beautiful and scenic area of our city.

Please stand up for the environment and do not support this risky and corporate venture that would cause major disturbances and negative impacts along our beautiful Little River.

Conny Hatch  
Belfast, Maine
