Subject: Concerns about Nordic Aqua Farms

I am writing because I care about the health, safety, economy, and environment of my community. I live in Hope, Maine, and consider the midcoast towns of Rockland, Camden, and Belfast to be part of my community. Penobscot Bay is a place that sustains us, feeds us and gives us a unique and beautiful place to call home. Nordic Aqua Farms plans to dump warm polluted water (effulgence, chemicals, medications, and more) into the Bay and possibly stir up mercury sediments. This does not sound like a sustainable business that will help the families, fish, or lobstermen of midcoast Maine. It sounds like a bad deal for everyone here.
