RE: HQR-MYDH-99QBH Leachate Transfer Upgrades
HAMPDEN, Maine

Dear Mr. Pelletier,

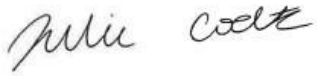

The above application was received by the Maine Department of Environmental Protection (the Department) on October 05, 2026, and determined to be complete and accepted for processing on October 27, 2026.

The application number assigned is HQR-MYDH-99QBH. I will be the project manager for the application; any questions, comments, and responses to requests for information concerning the application should be directed to me via the contact information provided below. Acceptance of the application as complete for processing is not a review of the sufficiency of the information provided and does not preclude the Department from requesting additional information during the application processing period. Failure to provide in a timely manner information that is necessary for the processing of the application may result in denial of the application.

A determination that an application is complete for processing is based on the Department's determination that the application is properly filled out and signed, and information is provided for each of the items included on the form, including evidence that (1) the correct application fee has been paid; (2) sufficient title, right or interest has been demonstrated; and (3) notice, when required, has been provided.

Please feel free to contact me at (207) 592-3879 or via email at Julie.M.Coats@maine.gov if you have any questions regarding this project.

Sincerely,

Julie Coats, Environmental Specialist III
