#### I agree that (select all that apply): me

- Wind projects should not be sited and/or expanded on lands surrounding Pisgah Mountain.
- Additional wind towers on Pisgah Mountain will negatively impact scenic resources of local and state significance, and further detract from my enjoyment of the surrounding area.
- I will see and/or hear (even within permitted sound levels) the towers from my home and I find that distressing.
- I believe studies that show proximity to wind towers lowers property values.
- I believe that the unnatural noise levels in this rural, scenic setting present far reaching health hazards to humans and wildlife.
- I believe that the Silver Maple developers have not taken adequate steps to protect wildlife, especially bats and birds.
