To: Maine Immunization Program Providers
From: Maine Immunization Program
Date: September 16, 2019
Subject: NEW Quarterly Vaccine Reminder Recall Notification

Beginning in November, the Maine Immunization Program will start running quarterly vaccine reminder recalls for children 18-35 months for all childhood vaccines and adolescents ages 11-13 for tetanus, diphtheria, pertussis (Tdap), meningococcal (MenACWY) and human papillomavirus (HPV) vaccines. These reminder recalls will be run for all family medicine and pediatric sites that are enrolled in the program.

Each site will receive a letter within the next couple weeks that will identify the week that you can expect letters to be mailed to your patients.

Please make sure that your inventory is appropriately stocked and that all ImmPact data entry is current for the most accurate reminder recall. If you have any questions, please contact Valerie MacKenzie: Phone: (207) 287-3862 or Email: valerie.mackenzie@Maine.gov

Thank you for your dedication to keep the people of Maine free from vaccine-preventable diseases.
