Download the BNFT app to your mobile device. Creating an account is easy! When setting up your account you will need: email address(username), eWIC card number, birthdate and your mailing zipcode. When you are ready to make a purchase, select "Farmer's Market Barcode" and display your screen to the farmer to complete your purchase!

If you do not have access to a mobile device, you can also visit mybnft.com and print off a barcode, which can be brought to the market. Be sure to pay close attention to the expiration date on printed barcodes!

On July 1st, participants over the age of 1 will be issued \$50 for the Farmer's Market Season! In addition, you can also use your monthly fruit and vegetable cash value benefit (CVB) year-round. If your purchase exceeds the \$50 provided for FMNP, the additional charge will be deducted from the available CVB balance. If your purchase exceeds both FMNP and CVB you will be required to use another form of tender.
