

Public Health Work Group

MAINE HEALTH AND HUMAN SERVICE DISTRICTS

Revised 7.25.07

In January 2007, the PHWG recommended eight regions composed as below for the purposes of data, planning, administration, funding allocation, and the effective and efficient delivery of public health services with provisions to be made for necessary exceptions for services across regional boundaries.

DHHS has adopted these recommendations, renaming the regions "Health and Human Service Districts" for use across DHHS programs.

Health and Human Service Districts			
District	County	County Population	District Population
1. York	York	200,359	200,359
