

0:0:7.898 --> 0:0:8.578

Pellegrino, Eli

Hi everyone.

0:0:8.578 --> 0:0:10.578

Pellegrino, Eli

I am Eli pellegrino.

0:0:12.738 --> 0:0:17.218

Pellegrino, Eli

We're gonna start in a little bit, but we're gonna wait for some stragglers to get in.

0:0:17.298 --> 0:0:22.58

Pellegrino, Eli

We had a lot of people registered, I think only about half of them right here so far.

0:0:23.818 --> 0:0:28.418

Pellegrino, Eli

So now is a good time to test out teams. If you can't hear me, check your volume.

0:0:28.418 --> 0:0:29.818

Pellegrino, Eli

Check your audio settings.

0:0:31.938 --> 0:0:36.178

Pellegrino, Eli

If you don't know where the chat button is, now would be a good time to find it.

0:0:36.378 --> 0:0:37.218

Pellegrino, Eli

It should be located.

0:0:37.768 --> 0:0:38.848

Pellegrino, Eli

U in that top.

0:0:40.818 --> 0:0:42.18

Pellegrino, Eli

Row of icons at top banner.

0:0:43.978 --> 0:0:50.138

Pellegrino, Eli

And if you have any questions about teams, I can try and help now, but I'm not like a big tech person.

0:0:51.738 --> 0:0:53.618

Pellegrino, Eli

So I'm mostly going to be Googling your questions.

0:0:57.268 --> 0:0:57.388

Pellegrino, Eli

Umm.

0:0:59.208 --> 0:1:2.8

Pellegrino, Eli

And if you don't have video capacity, that's probably fine.

0:1:2.488 --> 0:1:3.928

Pellegrino, Eli

You can always.

0:1:6.688 --> 0:1:6.768

Pellegrino, Eli

Uh.

0:1:10.538 --> 0:1:15.18

Pellegrino, Eli

Sorry if you don't have video capacity, that's fine. If you have a mic, you can use that.

0:1:15.18 --> 0:1:20.818

Pellegrino, Eli

If not, the chat is perfectly fine and I'll be paying attention to the chat during this whole presentation.

0:1:20.818 --> 0:1:22.858

Pellegrino, Eli

So if you have any questions, you can put them there.

0:1:24.998 --> 0:1:33.38

Pellegrino, Eli

If you're getting an echo, that might be an audio problem on your end, or you might have like 2 screens open or something.

0:1:39.818 --> 0:1:45.658

Pellegrino, Eli

It could also be a Wi-Fi issue if your Wi-Fi is not doesn't have the best connection.

0:1:51.688 --> 0:1:53.168

Pellegrino, Eli

Is anyone else getting an echo?

0:2:0.188 --> 0:2:0.388

George S Bouchles

Mm-hmm.

0:2:8.248 --> 0:2:8.648

Pellegrino, Eli

OK.

0:2:8.648 --> 0:2:12.128

Pellegrino, Eli

Great. So it's not my audio then, Tom. I think it might be yours.

0:2:34.128 --> 0:2:35.88

George S Bouchles

60 people.

0:3:10.498 --> 0:3:15.618

Pellegrino, Eli

Just gonna give it another minute or two just in case some folks haven't joined yet.

0:3:15.618 --> 0:3:17.698

Pellegrino, Eli

But we have quite a lot of folks here.

0:3:17.698 --> 0:3:19.658

Pellegrino, Eli

So happy to see that.

0:3:41.248 --> 0:3:46.968

Pellegrino, Eli

Going to be sharing my screen during this so can you guys see a screen here?

0:3:46.968 --> 0:3:48.528

Pellegrino, Eli

It should just look like some.

0:3:50.18 --> 0:3:52.498

Pellegrino, Eli

On a lake you should see my mess moving around.

0:3:54.848 --> 0:3:55.688

Amy Jones

Yes.

0:3:57.398 --> 0:3:58.38

Tom Malcolm

Yes.

0:3:59.68 --> 0:3:59.748

Pellegrino, Eli

Great. Thanks.

0:4:1.188 --> 0:4:2.68

Richard Clark

So you.

0:4:10.468 --> 0:4:19.108

Pellegrino, Eli

If you want to enable your video, you'll see at that top banner kind of near the middle ish. There's an icon.

0:4:20.538 --> 0:4:24.458

Pellegrino, Eli

And below it it says camera if there's an X through it, that means your video is off.

0:4:24.778 --> 0:4:26.858

Pellegrino, Eli

You should be able to click it and turn it on.

0:4:28.268 --> 0:4:30.508

Milligan, Tom

Yeah, I did that.

0:4:33.178 --> 0:4:36.738

Pellegrino, Eli

OK. Then maybe your camera is not working for some reason.

0:4:37.558 --> 0:4:41.598

Milligan, Tom

And it's not echoing now, so maybe it was just when you first started?

0:4:43.658 --> 0:4:44.298

Pellegrino, Eli

Maybe.

0:4:50.798 --> 0:4:52.658

George S Bouchles

Once more, where the Hell's the unmute?

0:4:55.408 --> 0:4:56.848

Pellegrino, Eli

Mute would be the mic.

0:4:56.848 --> 0:4:57.928

Pellegrino, Eli

Which is right next to it.

0:5:10.248 --> 0:5:11.88

George S Bouchles

That's thing 1/2.

0:5:12.568 --> 0:5:13.288

Pellegrino, Eli

We can hear you.

0:5:13.868 --> 0:5:14.188

George S Bouchles

All right.

0:5:14.188 --> 0:5:14.508

George S Bouchles

Thank you.

0:5:28.208 --> 0:5:30.688

Pellegrino, Eli

All right, let's get started. So.

0:5:32.538 --> 0:5:39.498

Pellegrino, Eli

Just for anyone who hasn't seen the forms yet or doesn't know how to find them. If you search main subsurface wastewater.

0:5:41.338 --> 0:5:44.258

Pellegrino, Eli

HHE 200 update.

0:5:44.258 --> 0:5:47.298

Pellegrino, Eli

It should be the first link that comes up.

0:5:47.898 --> 0:5:52.658

Pellegrino, Eli

This one you click on it and our forms are here for download.

0:5:54.298 --> 0:5:54.938

Pellegrino, Eli

Right now I would.

0:5:56.978 --> 0:5:57.818

Pellegrino, Eli

Think of these as kind of.

0:5:58.88 --> 0:6:6.248

Pellegrino, Eli

Like a preview, this event is a preview of everything and we are going to put out an official e-mail next week.

0:6:6.448 --> 0:6:19.128

Pellegrino, Eli

There's a chance that after reviewing everything with you guys, maybe you find a typo. Maybe there's some little like form function that we want to tweak, so it's possible that we might re upload the form between now and next Friday.

0:6:20.658 --> 0:6:25.58

Pellegrino, Eli

Which is all to say, if you download it today, you might want to check back next Friday and download it again.

0:6:27.18 --> 0:6:27.938

Pellegrino, Eli

But this is the new page.

0:6:28.488 --> 0:6:29.368

Pellegrino, Eli

The forms are here.

0:6:30.898 --> 0:6:46.818

Pellegrino, Eli

Once this training is complete, I will have a recording of it available and we'll have a link or either an embed to the recording on the website and then tomorrow if you are somebody who uses AutoCAD Josh, one of the coworkers here at one of my coworkers here.

0:6:46.818 --> 0:6:52.898

Pellegrino, Eli

At the drinking water program has created an AutoCAD version of this forum and he'll be doing a walkthrough of it tomorrow.

0:6:53.178 --> 0:6:55.458

Pellegrino, Eli

There's no credits for it, but.

0:6:56.378 --> 0:6:58.218

Pellegrino, Eli

It might be really helpful.

0:6:58.218 --> 0:6:59.178

Pellegrino, Eli

We did the best that we could.

0:6:59.688 --> 0:7:3.248

Pellegrino, Eli

With his knowledge of AutoCAD and how.

0:7:5.378 --> 0:7:8.738

Pellegrino, Eli

The form typically works, but you guys might have suggestions.

0:7:10.258 --> 0:7:16.378

Pellegrino, Eli

So that's tomorrow from 1:30 to 2:30 and then beneath that are all of our FAQs.

0:7:18.298 --> 0:7:22.218

Pellegrino, Eli

But going through the form.

0:7:24.218 --> 0:7:25.698

Pellegrino, Eli

This is the new form.

0:7:25.698 --> 0:7:28.938

Pellegrino, Eli

I'm just going to do a brief kind of overview of the whole thing.

0:7:29.648 --> 0:7:39.768

Pellegrino, Eli

How it works and we'll kind of get into the details of each page and I'll keep an eye on the chat. If you have any questions. But also a use every now and then to take questions.

0:7:42.408 --> 0:7:52.648

Pellegrino, Eli

So the main change with this form is that it is now a page longer and it also has a new alternative page which I'll get to in a second.

0:7:53.108 --> 0:7:57.628

Pellegrino, Eli

So the old page one has now been broken up into two pages.

0:7:58.148 --> 0:8:6.508

Pellegrino, Eli

So the new page one is mostly information that the town office is going to need. Things like the property owners information.

0:8:8.298 --> 0:8:9.858

Pellegrino, Eli

The town's information.

0:8:9.858 --> 0:8:11.578

Pellegrino, Eli

The actual disposal system.

0:8:11.578 --> 0:8:20.458

Pellegrino, Eli

And then there's a couple of things about the disposal system also on the first page, but most of the items about the disposal system are in this page.

0:8:20.458 --> 0:8:21.538

Pellegrino, Eli

Things are more spread out.

0:8:21.538 --> 0:8:23.898

Pellegrino, Eli

So there's a lot more room for adding notes.

0:8:25.308 --> 0:8:27.588

Pellegrino, Eli

And pages.

0:8:29.18 --> 0:8:33.898

Pellegrino, Eli

Old pages two and three. New pages, three and four are pretty much unchanged.

0:8:33.978 --> 0:8:38.258

Pellegrino, Eli

These look more or less the same as what they did before.

0:8:38.258 --> 0:8:43.18

Pellegrino, Eli

We've included both Gridid and ungrided versions.

0:8:44.778 --> 0:8:55.218

Pellegrino, Eli

For this form, since we did that on the previous one and then completely new to this form, is this page which we refer to as alternative Page 3.

0:8:56.508 --> 0:9:5.708

Pellegrino, Eli

During the rounds of feedback that we did, we heard from a lot of you that pages two and three did not have enough room for site designs.

0:9:7.378 --> 0:9:8.338

Pellegrino, Eli

And we understand that.

0:9:8.338 --> 0:9:11.698

Pellegrino, Eli

And also you can only get so large with a box on a page.

0:9:11.898 --> 0:9:21.898

Pellegrino, Eli

So what this page is allowing you to do is to basically do a design on a full page like this and attach it to the permit.

0:9:21.898 --> 0:9:26.18

Pellegrino, Eli

This is something that we've already seen some people doing anyway, but it's just.

0:9:26.568 --> 0:9:28.448

Pellegrino, Eli

To formalize it a little bit.

0:9:29.978 --> 0:9:45.538

Pellegrino, Eli

And it's based off of one of the pages that we have as part of the engineered system form and basically all of these boxes are information that would be on these other two pages, pages three and four. You would just check off to say, yeah, I have all.

0:9:45.538 --> 0:9:49.818

Pellegrino, Eli

This information included on the attached pages you would sign off on that.

0:9:50.298 --> 0:9:55.58

Pellegrino, Eli

You'd fill out these two things and then you would attach your other pages to it, and that's to allow for larger.

0:9:55.858 --> 0:9:56.418

Pellegrino, Eli

Designs.

0:9:58.98 --> 0:10:4.858

Pellegrino, Eli

But you would want to keep the pages at 8 1/2 by 11 just for printing and scanning purposes.

0:10:6.968 --> 0:10:10.928

Pellegrino, Eli

So that's the overview before I get into the nitty gritty. Any questions?

0:10:14.618 --> 0:10:14.818

Pellegrino, Eli

Mm-hmm.

0:10:25.408 --> 0:10:26.128

Pellegrino, Eli

Hi, Amy.

0:10:31.898 --> 0:10:34.138

Pellegrino, Eli

Amy, I think your microphone is still muted.

0:10:35.658 --> 0:10:36.658

Pellegrino, Eli

So you might need to tap that.

0:10:38.298 --> 0:10:38.938

Amy Jones

Sorry about that.

0:10:39.658 --> 0:10:39.738

George S Bouchles

Hi.

0:10:39.668 --> 0:10:40.988

Pellegrino, Eli

Totally fine. I do too.

0:10:42.638 --> 0:10:46.398

Amy Jones

I'm just wondering on the first page for the, you know like the address.

0:10:44.728 --> 0:10:44.848

Pellegrino, Eli

Mm-h.

0:10:47.198 --> 0:10:47.718

Pellegrino, Eli

Yes.

0:10:48.58 --> 0:10:50.938

Amy Jones

Is there any reason those boxes couldn't be a little longer?

0:10:52.618 --> 0:10:54.898

Amy Jones

The same with the owner name and applicant name.

0:10:54.898 --> 0:11:5.298

Amy Jones

Those boxes, they're just you have. If you have somebody that has a really long name or

a really long address, or you want to put two people's names in that, there's just not a lot of space there.

0:11:5.738 --> 0:11:7.818

Amy Jones

And that was one of my complaints on the last form.

0:11:6.498 --> 0:11:6.618

Pellegrino, Eli

Yes.

0:11:18.378 --> 0:11:19.978

Pellegrino, Eli

I yeah.

0:11:18.508 --> 0:11:24.588

Amy Jones

So that was just just more of a comment, hoping that that might be something that could be, you know, widened out a little bit.

0:11:25.538 --> 0:11:27.138

Pellegrino, Eli

Yeah, I can look into that.

0:11:27.138 --> 0:11:32.618

Pellegrino, Eli

There might be a little there might be a little bit more space that I can provide, but not too much.

0:11:32.738 --> 0:11:40.298

Pellegrino, Eli

I will say that with the font size that we have, it is you can get a fairly long name in there.

0:11:42.258 --> 0:11:45.298

Pellegrino, Eli

But I I hear that with the street and address.

0:11:45.298 --> 0:11:46.858

Pellegrino, Eli

I don't think we can make that any longer.

0:11:48.498 --> 0:11:55.458

Pellegrino, Eli

We would need to separate it onto 2 lines, which would put everything on the form down.

0:11:56.48 --> 0:11:56.968

Pellegrino, Eli

So we can't do that.

0:11:56.968 --> 0:11:58.568

Pellegrino, Eli

We have to keep everything on this one line.

0:12:1.718 --> 0:12:5.558

Pellegrino, Eli

But you know, if you have kind of a short St. number you could.

0:12:2.818 --> 0:12:3.178

Amy Jones

OK.

0:12:7.618 --> 0:12:11.298

Pellegrino, Eli

Either hand write it in so that it can be a little bit longer between those two.

0:12:11.418 --> 0:12:16.178

Pellegrino, Eli

But we did check against some really long street names in the state to make sure that everything was fitting.

0:12:17.628 --> 0:12:18.348

Amy Jones

OK.

0:12:20.738 --> 0:12:24.18

Amy Jones

Alright, I just, you know, sometimes the font gets so tiny that you can't read it very well.

0:12:24.18 --> 0:12:30.418

Amy Jones

So I just was hoping to have a little more space there, but that that that sounds good.
Thank you.

0:12:30.488 --> 0:12:30.648

Pellegrino, Eli

Yeah.

0:12:33.808 --> 0:12:35.448

Pellegrino, Eli

Rodney, I see that your hand is up.

0:12:36.308 --> 0:12:37.188

Rodney Kelshaw

Yeah. Hi. Thanks.

0:12:36.688 --> 0:12:36.968

Roger St Amand

Hi.

0:12:39.18 --> 0:12:52.18

Rodney Kelshaw

These forms are looking great, so thanks for making the changes, but to to Amy's point, are these the types of fields that as you type the the words in the font gets smaller when it gets to the end?

0:12:42.298 --> 0:12:42.458

edwin macarthur

OK.

0:12:52.58 --> 0:12:55.538

Rodney Kelshaw

Or are they the type that it goes? It goes off the end.

0:12:55.538 --> 0:12:58.698

Rodney Kelshaw

So if you flatten, this text disappears.

0:13:1.478 --> 0:13:3.958

Pellegrino, Eli

I think it's the type that gets smaller.

0:13:5.458 --> 0:13:5.658

Pellegrino, Eli

Let's.

0:13:7.438 --> 0:13:8.998

Pellegrino, Eli

My brother has a really long name.

0:13:9.38 --> 0:13:10.358

Pellegrino, Eli

Let's see, we do that.

0:13:16.458 --> 0:13:18.658

Pellegrino, Eli

I think that it will start to run off.

0:13:20.218 --> 0:13:22.938

Pellegrino, Eli

I can double check that.

0:13:22.938 --> 0:13:23.458

Pellegrino, Eli

Yeah, it will.

0:13:23.458 --> 0:13:24.218

Pellegrino, Eli

It will cut off.

0:13:26.658 --> 0:13:26.818

Rodney Kelshaw

OK.

0:13:26.818 --> 0:13:35.178

Rodney Kelshaw

So I I don't know how to do it 'cause I'm better with dirt than I am with forms, but there is a way to set these up so that the text gets smaller versus trailing off too.

0:13:35.178 --> 0:13:37.498

Rodney Kelshaw

So that might help be helpful in some cases.

0:13:36.608 --> 0:13:37.248

Pellegrino, Eli

Yeah.

0:13:40.58 --> 0:13:41.138

Pellegrino, Eli

I will look into that.

0:13:44.218 --> 0:13:46.58

Pellegrino, Eli

I'll say this is my first time using.

0:13:47.578 --> 0:13:48.898

Pellegrino, Eli

Adobe forms.

0:13:49.18 --> 0:13:51.338

Pellegrino, Eli

So it's certainly been a learning experience.

0:13:53.738 --> 0:13:53.938

Pellegrino, Eli

OK.

0:13:56.298 --> 0:13:57.778

Pellegrino, Eli

Tom, I think you have a question.

0:13:58.268 --> 0:14:2.748

Milligan, Tom

Yeah, the current forms, the ones that you could at least fill in.

0:14:3.308 --> 0:14:3.508

Pellegrino, Eli

Mm-hmm.

0:14:4.258 --> 0:14:11.578

Milligan, Tom

One like the address was fine. You get down into the bottom septic tank size. For example. It was so small you couldn't read it.

0:14:12.178 --> 0:14:16.698

Milligan, Tom

So I don't know if that's been adjusted so that the font size is the same throughout.

0:14:12.338 --> 0:14:12.538

Pellegrino, Eli

Mm-hmm.

0:14:18.418 --> 0:14:23.18

Pellegrino, Eli

It is about the same throughout. I did set everything at a consistent font.

0:14:24.498 --> 0:14:36.858

Pellegrino, Eli

Can't remember it was either at you wanna say it might have been at 10, but it could have been anywhere between 8:00 and 12:00 if there was anything that looked like it was going to have a lot of notes written into it, I might have said it at.

0:14:36.858 --> 0:14:44.498

Pellegrino, Eli

A smaller font, but I tried to keep everything fairly consistent and to provide a couple of lines to do things.

0:14:48.618 --> 0:14:48.978

Milligan, Tom

Thanks.

0:14:49.508 --> 0:14:49.628

Pellegrino, Eli

Hmm.

0:14:51.108 --> 0:14:53.108

George S Bouchles

What is the font you're using?

0:14:51.528 --> 0:14:52.328

Pellegrino, Eli

Roger.

0:14:54.278 --> 0:14:55.478

Pellegrino, Eli

What's the font?

0:14:55.558 --> 0:14:56.838

Pellegrino, Eli

I think it's Ariel.

0:14:57.438 --> 0:14:59.278

Pellegrino, Eli

The state usually defaults to that.

0:14:59.818 --> 0:15:0.458

George S Bouchles

Ariel.

0:15:0.918 --> 0:15:0.998

Pellegrino, Eli

Mm.

0:15:4.868 --> 0:15:5.668

George S Bouchles

Thank you.

0:15:6.818 --> 0:15:8.58

Pellegrino, Eli

Roger, I see your hand is up.

0:15:8.558 --> 0:15:10.118

Roger St Amand

Yep. Thanks, Eli.

0:15:10.118 --> 0:15:10.558

Roger St Amand

Could we?

0:15:10.558 --> 0:15:24.738

Roger St Amand

Is there a way like on that page one it looks like you've kind of tried to sort of keep

some of the the the labels in line like Street, City, phone. If those pushed over like same thing with owner name. If we move those all the way over.

0:15:20.528 --> 0:15:20.728

Pellegrino, Eli

Mm-hmm.

0:15:24.738 --> 0:15:30.958

Roger St Amand

To the left, maybe we could pull those boxes out and make them a little bigger. Like to Amy's point about the owner name.

0:15:30.998 --> 0:15:32.918

Roger St Amand

Yeah, like pulling that.

0:15:32.418 --> 0:15:40.338

Pellegrino, Eli

With owner name we might be able to do that a little bit, but with address with number in Street we wouldn't be able to.

0:15:36.458 --> 0:15:37.18

Roger St Amand

Yeah.

0:15:40.938 --> 0:15:45.898

Pellegrino, Eli

We did debate for quite a while, taking out number and St. to provide more room.

0:15:46.138 --> 0:15:53.938

Pellegrino, Eli

The reason that we didn't was that we frequently see permits without St. numbers, and I know that for some cases there's just not really a house number.

0:15:55.418 --> 0:15:59.738

Pellegrino, Eli

But it makes searching for permits down the road really difficult if there isn't a house number.

0:15:59.738 --> 0:16:1.98

Pellegrino, Eli

So we wanted to emphasize that.

0:16:2.328 --> 0:16:10.288

Pellegrino, Eli

On this version of the permit just to try and keep searchability a little bit better going forward, but with the owner name, we might be able to.

0:16:6.248 --> 0:16:6.328

George S Bouchles

SH.

0:16:8.348 --> 0:16:15.628

Roger St Amand

Yeah, and and I think I'm good with the address part for sure, but the the owner name is always in the app you know is always.

0:16:15.668 --> 0:16:23.28

Roger St Amand

Owner and applicant are always ones where there might be a couple owners or you might have like a, you know, a construction company or somebody.

0:16:15.688 --> 0:16:16.128

Pellegrino, Eli

Yeah.

0:16:23.28 --> 0:16:28.508

Roger St Amand

So yeah, expanding those would be a good a good idea if we can. Thank you.

0:16:24.508 --> 0:16:24.868

Pellegrino, Eli

Yeah.

0:16:29.818 --> 0:16:30.298

Pellegrino, Eli

Thanks.

0:16:33.188 --> 0:16:35.28

Pellegrino, Eli

See Bonnie. I see your hand up.

0:16:38.328 --> 0:16:46.808

Bonnie Cobb

Just kind of expanding on that same thought here. It seems like there's two different lines, one for owner and then another one for applicant.

0:16:46.808 --> 0:16:56.408

Bonnie Cobb

I mean in the current form, there's really just, you know, open space to write either applicant or owner and then just a box to check whether or not their applicant or owner.

0:16:46.948 --> 0:16:47.148

Pellegrino, Eli

Mm-hmm.

0:16:56.408 --> 0:17:3.888

Bonnie Cobb

So could we use both of those lines for the the names and they just have a box to check applicant or owners otherwise?

0:17:4.658 --> 0:17:7.138

Bonnie Cobb

One of those lines is gonna remain empty.

0:17:8.128 --> 0:17:19.48

Bonnie Cobb

Generally, and if the other one you know is long, it would just give you extra space to have both both of those lines as opposed to leaving one for owner and one for applicants.

0:17:19.48 --> 0:17:20.848

Bonnie Cobb

Usually it's one or the other.

0:17:22.998 --> 0:17:32.478

Pellegrino, Eli

We can look into that, but one of the issues that we've seen with permits in the past is that folks don't always check off if they're the owner of the applicant.

0:17:32.758 --> 0:17:36.718

Pellegrino, Eli

So when it comes to searching for the permit in the future, that makes it a little bit more difficult.

0:17:40.838 --> 0:17:42.158

Pellegrino, Eli

But we can look into that.

0:17:44.498 --> 0:17:50.298

Pellegrino, Eli

OK. And let me just take a second to check the chat 'cause I saw some people asking questions in there.

0:17:51.298 --> 0:17:52.258

Bonnie Cobb

Sure. Thanks.

0:18:5.158 --> 0:18:9.358

Pellegrino, Eli

OK, Tom, I see you have a couple of questions you asked.

0:18:9.358 --> 0:18:15.358

Pellegrino, Eli

Can we submit multiple pages and is the font size large enough to see as opposed to the current form?

0:18:16.938 --> 0:18:22.818

Pellegrino, Eli

In terms of I'm guessing, can we submit multiple pages? Was about this page and the answer would be yes.

0:18:23.738 --> 0:18:30.498

Pellegrino, Eli

You know, I would try and keep in mind that the town does have to send these to the state, so maybe not make it like a big.

0:18:32.578 --> 0:18:34.18

Pellegrino, Eli

Thick thing, but if if you want to submit.

0:18:34.368 --> 0:18:37.488

Pellegrino, Eli

All of the allegations you can as long as you get all of this information.

0:18:38.938 --> 0:18:41.418

Pellegrino, Eli

As for the font size.

0:18:44.18 --> 0:18:48.778

Pellegrino, Eli

I mean, this is the font size, so I think that it's fairly readable.

0:18:50.498 --> 0:18:53.138

Pellegrino, Eli

I don't know what size it is compared to the old one.

0:18:53.428 --> 0:18:53.548

edwin macarthur

See.

0:18:59.568 --> 0:19:4.688

Pellegrino, Eli

Will there be a new form for 220A or will that remain the same?

0:19:6.138 --> 0:19:7.138

Pellegrino, Eli

That will remain the same.

0:19:7.138 --> 0:19:10.898

Pellegrino, Eli

The only two forms updating right now are the 200 and the 204.

0:19:13.858 --> 0:19:18.18

Pellegrino, Eli

Well HH is done and signed with SE in the last two years.

0:19:14.568 --> 0:19:15.48

edwin macarthur

Play song.

0:19:18.18 --> 0:19:19.498

Pellegrino, Eli

Still be acceptable?

0:19:19.978 --> 0:19:21.218

Pellegrino, Eli

Yes. Yeah.

0:19:21.538 --> 0:19:28.218

Pellegrino, Eli

So there will be a grace period for starting to use this form until the end of next year.

0:19:28.488 --> 0:19:32.568

Pellegrino, Eli

So starting in 2027, we'll expect the Swarm to be the one in use.

0:19:34.98 --> 0:19:43.618

Pellegrino, Eli

So any permits that are permitted before that date, that date are fine to be on the old form that we encourage starting to use the new one.

0:19:46.208 --> 0:19:56.528

Ted Pellerin

Can I cut in on that question just because I'm thinking the time things? If I did work this year, for example, and somebody's got a site evaluation, they report from me?

0:19:57.498 --> 0:20:8.298

Ted Pellerin

It's it might be two years before they I'm trying to think there's a two year window that this site evaluation. This forum is still current and before they need an update. As far as state is concerned.

0:20:8.368 --> 0:20:11.568

Ted Pellerin

Shouldn't extend one more year into the future?

0:20:12.168 --> 0:20:14.648

Ted Pellerin

Or would they need a revision of these plans? Done.

0:20:12.938 --> 0:20:13.578

Pellegrino, Eli

Yeah.

0:20:14.888 --> 0:20:15.728

Ted Pellerin

Thank you.

0:20:16.708 --> 0:20:18.988

Pellegrino, Eli

So you are talking about?

0:20:21.458 --> 0:20:21.538

Pellegrino, Eli

If.

0:20:23.818 --> 0:20:29.138

Pellegrino, Eli

A system is permitted next year. It has two years before it has to be installed, and there might be changes.

0:20:30.838 --> 0:20:31.238

Ted Pellerin

I was.

0:20:30.938 --> 0:20:31.138

Pellegrino, Eli

Or you.

0:20:31.278 --> 0:20:36.958

Ted Pellerin

I was actually thinking I completed a set of plans for somebody, say in August this year.

0:20:36.578 --> 0:20:36.778

Pellegrino, Eli

Mm-hmm.

0:20:38.338 --> 0:20:42.978

Ted Pellerin

We don't need to update plans until after two years by my rules.

0:20:39.398 --> 0:20:39.558

edwin macarthur

It's.

0:20:45.258 --> 0:20:59.578

Ted Pellerin

So that a person may take those plans in in a year and 10 months and go to the town, code enforcement folks and they'll say, shoot, you've got to update those plans because it's the wrong form that should last for two years.

0:20:59.808 --> 0:21:4.368

Ted Pellerin

Is what was discussed at the winter meeting that that was tossed around.

0:21:2.988 --> 0:21:7.428

Pellegrino, Eli

If I was not present at the winter meeting, but Alex was so.

0:21:8.898 --> 0:21:14.658

Pellegrino, Eli

Alex, if you would like to weigh in or think about it and weigh in in the chat, that would be.

0:21:14.998 --> 0:21:15.238

edwin macarthur

Listen.

0:21:17.278 --> 0:21:23.398

Pugh, Alex L

Yeah, I think I think we'll we'll discuss it in our next unit meeting and and we'll have to.

0:21:17.298 --> 0:21:17.498

Pellegrino, Eli

Great.

0:21:24.898 --> 0:21:28.218

Pugh, Alex L

You'll see it in in the next in our, our next emails out.

0:21:33.978 --> 0:21:34.458

Pellegrino, Eli

Sounds good.

0:21:36.58 --> 0:21:36.698

Pellegrino, Eli

Continuing through the chat.

0:21:41.318 --> 0:21:42.78

Pellegrino, Eli

Jeff asks.

0:21:42.78 --> 0:21:43.158

Pellegrino, Eli

Are these still in development?

0:21:43.198 --> 0:21:45.758

Pellegrino, Eli

I was under the impression that these are finalized and ready for use.

0:21:47.258 --> 0:21:49.458

Pellegrino, Eli

These are pretty much done.

0:21:49.458 --> 0:22:7.618

Pellegrino, Eli

The only things that I was going to change after this meeting was anything like a typo, or if there are any like major issues, but these are these are very, very close to final if not finalized and we put them on the website with the idea that they.

0:22:7.618 --> 0:22:7.978

Pellegrino, Eli

Were final.

0:22:15.758 --> 0:22:17.958

Pellegrino, Eli

I think that's all the questions in the chat for now.

0:22:19.978 --> 0:22:22.538

Pellegrino, Eli

So I will focus back on the form.

0:22:21.928 --> 0:22:22.88

edwin macarthur

OK.

0:22:26.618 --> 0:22:28.138

Pellegrino, Eli

Completely lost my mouse. There we go.

0:22:29.858 --> 0:22:34.858

Pellegrino, Eli

So the first page in terms of the information that we're gathering is largely the same.

0:22:35.18 --> 0:22:38.818

Pellegrino, Eli

I mentioned that we have a area specifically for street number now.

0:22:40.618 --> 0:22:42.98

Pellegrino, Eli

Which we did not have before.

0:22:42.98 --> 0:22:48.178

Pellegrino, Eli

We've also added an area for e-mail which was not available before for the property owner.

0:22:49.218 --> 0:22:58.538

Pellegrino, Eli

And also new in this section is the installer information. There was no previous place on the form other than the margins to write an installer information.

0:22:59.18 --> 0:23:11.338

Pellegrino, Eli

So that is there for Lpis and town offices to take in, and this will probably happen later in the process when the installer is actually doing or when the LP is actually doing an inspection.

0:23:8.188 --> 0:23:8.788

edwin macarthur

Interesting.

0:23:13.598 --> 0:23:15.158

Pellegrino, Eli

This remains the same.

0:23:15.198 --> 0:23:20.38

Pellegrino, Eli

We have added a second signature line for the LPI during the inspection.

0:23:20.318 --> 0:23:25.318

Pellegrino, Eli

Previously there was one signature line and two dates, so we've just given them two.

0:23:26.778 --> 0:23:28.178

Pellegrino, Eli

And this section is also new.

0:23:28.178 --> 0:23:40.138

Pellegrino, Eli

It has some things that are similar to the form before, like the fee breakdown and also there is a place here for checking anything that's going to kind of impact the.

0:23:41.778 --> 0:23:42.418

Pellegrino, Eli

Fees of the permits.

0:23:42.728 --> 0:23:46.128

Pellegrino, Eli

So if it's like a revision, if it's a doubled fee, there's a variance.

0:23:46.128 --> 0:23:54.808

Pellegrino, Eli

If it's a seasonal conversion, that's all there, and that's to help the town of calculating the overall fee for the permit, as well as having this box where they can.

0:23:56.378 --> 0:24:3.578

Pellegrino, Eli

Do an actual calculation if they want to, which might also be helpful for showing property owners why they're paying the fee that they're paying.

0:24:5.658 --> 0:24:9.138

Pellegrino, Eli

These are pulled over from the old form.

0:24:9.138 --> 0:24:10.498

Pellegrino, Eli

They are more or less the same.

0:24:10.498 --> 0:24:11.938

Pellegrino, Eli

I think we added minor.

0:24:12.208 --> 0:24:15.88

Pellegrino, Eli

The words minor and major to this section.

0:24:15.88 --> 0:24:18.448

Pellegrino, Eli

I don't think we need any changes to this variance.

0:24:18.448 --> 0:24:23.328

Pellegrino, Eli

One treatment tanks has only changed a little bit and that's to help with.

0:24:25.418 --> 0:24:28.738

Pellegrino, Eli

Getting more information. So there's a notes section now for the tanks.

0:24:28.738 --> 0:24:39.378

Pellegrino, Eli

We see that you guys put notes a lot in the tanks section. Anyway to say if, like there's an

existing tank, if you're putting a couple of tanks in, if the tanks are different, why they're different?

0:24:39.698 --> 0:24:42.698

Pellegrino, Eli

So we imagine this not section being used for things like that.

0:24:43.488 --> 0:24:57.208

Pellegrino, Eli

We also have this new line called total number of tanks and that's just for if you're putting in more than one tank, you can note that down 'cause, there wasn't really a good way of representing that on the form before.

0:24:59.18 --> 0:25:5.658

Pellegrino, Eli

In the disposal system components, this is more or less the same format as before, but we have a couple of.

0:25:7.658 --> 0:25:9.498

Pellegrino, Eli

Areas for adding kind of additional.

0:25:11.98 --> 0:25:13.258

Pellegrino, Eli

Information. So if there's more than one tank.

0:25:13.648 --> 0:25:17.768

Pellegrino, Eli

Going into a complete non engineered system you can note it here.

0:25:18.88 --> 0:25:23.608

Pellegrino, Eli

There's also specifying the type of alternative toilet for primitive system and alternative toilet before.

0:25:23.608 --> 0:25:29.768

Pellegrino, Eli

I think only the alternative toilet had one, so now you can write it in with the actual line item.

0:25:31.498 --> 0:25:34.618

Pellegrino, Eli

And then kind of try and continues with number of tanks?

0:25:35.138 --> 0:25:44.818

Pellegrino, Eli

This was the one error that I noticed before that I needed to change, which is that you would not be specifying the number of tanks with the miscellaneous component.

0:25:44.818 --> 0:25:46.138

Pellegrino, Eli

You'd be specifying the component.

0:25:47.28 --> 0:25:52.828

Pellegrino, Eli

So we'll do a quick fix on that and put the and the put the form back up with that fix.

0:25:54.538 --> 0:26:0.938

Pellegrino, Eli

We also have a couple of notes down here just about what counts as a tank. What doesn't.

0:26:1.58 --> 0:26:9.218

Pellegrino, Eli

Mostly this is for fee purposes and then this is about the same for site evaluator statements. OK.

0:26:9.218 --> 0:26:13.418

Pellegrino, Eli

I'm gonna check the chat 1st and then I'll calm the hands.

0:26:14.938 --> 0:26:18.58

Pellegrino, Eli

So question on asterisks on disposal system components.

0:26:20.808 --> 0:26:30.368

Amy Jones

Yeah, that was that was me. And I'm sorry, I kind of missed a little bit of your last your very last sentence that you that you talked about.

0:26:25.518 --> 0:26:25.958

Pellegrino, Eli

Who?

0:26:30.368 --> 0:26:41.448

Amy Jones

But I I just noticed that on the the asterisks, there's the asterisks in that section and I see the two asterisks on the bottom that says details on page two and that that applies to the pre treatment tank.

0:26:41.448 --> 0:26:46.8

Amy Jones

But I don't see a single asterisk. Where is that?

0:26:42.278 --> 0:26:42.718

Pellegrino, Eli

Yes.

0:26:45.118 --> 0:26:48.638

Pellegrino, Eli

The single asterisks is just highlight the whole page.

0:26:48.638 --> 0:26:51.798

Pellegrino, Eli

It's right over here on the 750 gallons or more.

0:26:52.778 --> 0:26:53.618

Amy Jones

Oh, OK.

0:26:53.258 --> 0:26:56.338

Pellegrino, Eli

It's so it's just about the tanks and what qualifies as a tank.

0:26:53.658 --> 0:26:53.978

Amy Jones

I'm I.

0:26:58.768 --> 0:26:59.208

Amy Jones

OK.

0:26:59.208 --> 0:27:0.128

Amy Jones

I'm sorry, I thought.

0:27:0.128 --> 0:27:2.888

Amy Jones

Maybe I just missed seeing that. OK, thank you.

0:27:3.528 --> 0:27:3.888

Pellegrino, Eli

After that.

0:27:5.128 --> 0:27:8.128

Pellegrino, Eli

And Tom, I say that you have your hand up too.

0:27:8.778 --> 0:27:12.978

Milligan, Tom

Yeah, a general question. Once these forms are filled in.

0:27:14.458 --> 0:27:15.738

Milligan, Tom

Are mostly filled in, let's say.

0:27:17.378 --> 0:27:23.858

Milligan, Tom

And we send a copy to the LPI, and I don't know if it's all gonna be electronic transfers.

0:27:23.898 --> 0:27:25.338

Milligan, Tom

Send one to the owner.

0:27:25.338 --> 0:27:39.378

Milligan, Tom

I guess where I'm going with this is the concern the if it's still alive and we don't have a

clue who the installer is, is the applicant gonna be able to get into this form and add the stuff?

0:27:39.808 --> 0:27:45.648

Milligan, Tom

And if so, what type of protection do we have that they won't go in and alter something else?

0:27:46.968 --> 0:27:49.408

Pellegrino, Eli

So this is a fillable form.

0:27:47.138 --> 0:27:47.658

Milligan, Tom

You know people.

0:27:49.408 --> 0:27:52.448

Pellegrino, Eli

You do not need to send them a fillable form.

0:27:53.128 --> 0:28:9.848

Pellegrino, Eli

So what you would do after filling this form out would be to print it and either you could print it as an actual thing or you can save it as APDF and then it would send just as any PDF and it would have the protections of any P.

0:28:10.568 --> 0:28:11.8

Pellegrino, Eli

Does now.

0:28:12.898 --> 0:28:13.618

Milligan, Tom

Right, I guess.

0:28:13.618 --> 0:28:17.698

Milligan, Tom

And and this isn't implying anything to anybody, but.

0:28:18.608 --> 0:28:21.968

Milligan, Tom

Will the LP is get this fillable form?

0:28:22.88 --> 0:28:24.568

Milligan, Tom

Or will they get a a printed one?

0:28:25.938 --> 0:28:34.58

Pellegrino, Eli

So the LP is will have access to the fillable form that's on our website, but it in terms of what they get, it depends on what you send them.

0:28:35.28 --> 0:28:38.868

Milligan, Tom

Alright 'cause, I'm concerned about the installer information.

0:28:40.338 --> 0:28:46.658

Milligan, Tom

No, I haven't had awful good luck over my history. But that's my problem, not yours, I guess. Thanks.

0:28:40.518 --> 0:28:40.678

Pellegrino, Eli

Good.

0:28:43.198 --> 0:28:43.318

Pellegrino, Eli

Mm-h.

0:28:46.978 --> 0:29:2.58

Pugh, Alex L

Concerning that the installer information, I think if if the the installer or the LPI scribbles it on to the the form at the time of the first signature. I think that's about all we can expect.

0:29:2.628 --> 0:29:3.68

Pellegrino, Eli

Yeah.

0:29:9.168 --> 0:29:9.768

Milligan, Tom

Thanks.

0:29:11.368 --> 0:29:14.368

Pellegrino, Eli

Any other questions on the first page before we move on to the next one?

0:29:19.938 --> 0:29:21.498

Pellegrino, Eli

Alrighty, moving right along.

0:29:26.118 --> 0:29:34.398

Pellegrino, Eli

This is pretty much all of the information that used to be on the first page, but spread out a little bit more, so there's more room for.

0:29:29.188 --> 0:29:29.348

edwin macarthur

Yeah.

0:29:35.858 --> 0:29:40.498

Pellegrino, Eli

Adding notes. All of these specify boxes are larger than what they used to be on the old form.

0:29:40.938 --> 0:29:50.978

Pellegrino, Eli

We have a nice large box for any additional notes and completely new to this form is a section on pre treatment slash advanced treatment systems.

0:29:51.498 --> 0:29:53.458

Pellegrino, Eli

We have two boxes for now.

0:29:53.458 --> 0:29:56.578

Pellegrino, Eli

Maybe a future version will have more if there's a lot of pre treatment.

0:29:56.968 --> 0:29:59.888

Pellegrino, Eli

But stop happening.

0:29:59.888 --> 0:30:11.848

Pellegrino, Eli

But we thought that this was sufficient for now and one of the bits of feedback that we received that we incorporated was adding this checkbox for a maintenance contract.

0:30:14.468 --> 0:30:17.628

Pellegrino, Eli

Otherwise, this is all pretty much the same.

0:30:19.488 --> 0:30:24.608

Pellegrino, Eli

I can answer questions on it, but not too much has changed other than just the actual formatting of it.

0:30:33.598 --> 0:30:34.998

Pellegrino, Eli

Thomas, see that your hand is up?

0:30:35.408 --> 0:30:35.728

Milligan, Tom

Yeah.

0:30:37.598 --> 0:30:42.518

Milligan, Tom

Is there provisions or can there be another page for adding additional notes?

0:30:43.238 --> 0:30:46.118

Milligan, Tom

I mean, I tend to add notes to cover my ****.

0:30:48.418 --> 0:30:49.778

Pellegrino, Eli

Yeah. I mean, if we use.

0:30:48.888 --> 0:30:51.408

Milligan, Tom

Maybe that's the engineering me too, but still.

0:30:52.478 --> 0:30:57.958

Pellegrino, Eli

If you used to add a page of notes to the permit, you can still add a page of notes to the permit.

0:30:59.128 --> 0:31:0.368

Milligan, Tom

OK. Thanks.

0:31:5.968 --> 0:31:11.848

Pellegrino, Eli

Going on to Page 3, this really hasn't changed since the previous one.

0:31:13.768 --> 0:31:15.808

Pellegrino, Eli

We tried to make this box a little bit bigger.

0:31:17.488 --> 0:31:20.288

Pellegrino, Eli

But it is pretty similar in size still.

0:31:22.968 --> 0:31:26.728

Pellegrino, Eli

This is the same thing, but without the grid lines.

0:31:28.408 --> 0:31:33.408

Pellegrino, Eli

And then page four, also very similar to the previous version.

0:31:35.728 --> 0:31:37.888

Pellegrino, Eli

And we have a grided and a non grided.

0:31:38.678 --> 0:31:39.798

Pellegrino, Eli

Version available.

0:31:41.868 --> 0:31:46.68

Pellegrino, Eli

And then move in that right to the alternative Page 3.

0:31:49.288 --> 0:31:53.888

Pellegrino, Eli

You'll see that this box is pulled straight from page.

0:31:55.848 --> 0:31:56.48

Pellegrino, Eli

3.

0:31:56.438 --> 0:32:0.638

Pellegrino, Eli

Here exact same thing and then this little section.

0:32:0.878 --> 0:32:9.78

Pellegrino, Eli

Oops, sorry, wrong page. This little section of page four was also brought under alternative Page 3, and that's right there.

0:32:9.358 --> 0:32:19.398

Pellegrino, Eli

So you can just fill in all of those things right on this page and then what you would be attaching is mostly the site plan and the soil profile.

0:32:21.168 --> 0:32:26.448

Pellegrino, Eli

And you would just want to check off all of these boxes saying that you've attached them.

0:32:27.498 --> 0:32:28.178

Pellegrino, Eli

Sign off.

0:32:29.848 --> 0:32:29.968

Pellegrino, Eli

And.

0:32:34.338 --> 0:32:35.138

Pellegrino, Eli

And that would be that.

0:32:36.648 --> 0:32:37.328

Pellegrino, Eli

I see.

0:32:37.328 --> 0:32:38.488

Pellegrino, Eli

Amy, you have a question?

0:32:42.318 --> 0:32:49.798

Amy Jones

I'm looking at the soil profile and description boxes on the page, three and.

0:32:52.288 --> 0:33:1.48

Amy Jones

Well, one, I'm noticing that the box on the left hand side that columns are different widths than the columns on the right hand side.

0:33:2.888 --> 0:33:13.368

Amy Jones

So for the first Test bit, they're smaller and the 2nd test bit there has more space for the columns, so it would be really nice if we could get those columns to be the same.

0:33:14.398 --> 0:33:29.328

Amy Jones

And it would also be nice also be nice if we can have a little bit more room for texture and you could make the consistence column a little bit smaller. 'cause there's usually less words that you have to use in the consistence column than you do in the.

0:33:14.908 --> 0:33:17.348

Pellegrino, Eli

I yeah, sorry. Continue.

0:33:29.328 --> 0:33:30.38

Amy Jones

Textures column.

0:33:34.288 --> 0:33:38.808

Pellegrino, Eli

I will see what I can do about that. I will say that these were particularly fussy.

0:33:40.328 --> 0:33:48.568

Pellegrino, Eli

And there might not be much that I can do in the next week to fix them, but I'll work and see if I can redo them a little bit.

0:33:50.608 --> 0:33:52.688

Pellegrino, Eli

But this might be as good as they can get.

0:33:54.368 --> 0:33:56.168

Pellegrino, Eli

We do have some.

0:33:54.488 --> 0:33:55.48

Amy Jones

OK.

0:34:0.818 --> 0:34:1.698

Pellegrino, Eli

Let me pull them up.

0:34:6.28 --> 0:34:8.348

Pellegrino, Eli

What I was going through, what was available on the website.

0:34:10.128 --> 0:34:16.448

Pellegrino, Eli

We do have this extra soil log page that I think Peter might have made quite a while ago.

0:34:18.448 --> 0:34:27.688

Pellegrino, Eli

And if this is nicer or you find this easier to use, we might keep this and put it on.

0:34:29.448 --> 0:34:33.728

Pellegrino, Eli

Sorry and put it on the other page with the new forms.

0:34:34.688 --> 0:34:34.768

Amy Jones

Oh.

0:34:35.408 --> 0:34:36.288

Pellegrino, Eli

If you don't like how.

0:34:36.638 --> 0:34:39.398

Pellegrino, Eli

The boxes are in the on the new version.

0:34:39.48 --> 0:34:39.288

Amy Jones

OK.

0:34:40.808 --> 0:34:41.728

Amy Jones

All right, great. Thank you.

0:34:53.548 --> 0:34:58.68

Pellegrino, Eli

And the soil profile descriptions be fillable.

0:35:8.158 --> 0:35:9.518

Pellegrino, Eli

So one.

0:35:11.768 --> 0:35:17.968

Pellegrino, Eli

I I can I can try. So one of the things that we did do was on these.

0:35:18.128 --> 0:35:21.568

Pellegrino, Eli

You'll see that these ones kind of are the lines and these ones don't.

0:35:21.928 --> 0:35:28.528

Pellegrino, Eli

That's due to the way that we formatted the fillable form.

0:35:28.648 --> 0:35:37.568

Pellegrino, Eli

You should be able to add a picture in here, so if you prefer to like hand fill them you could take like a picture or you can screenshot something and put it in there.

0:35:38.408 --> 0:35:40.448

Pellegrino, Eli

But when you ask.

0:35:41.518 --> 0:35:43.478

Pellegrino, Eli

Or these to be fillable.

0:35:43.598 --> 0:35:50.678

Pellegrino, Eli

Are you talking about each individual line should be fillable or the whole box?

0:35:53.118 --> 0:36:7.968

Ted Pellerin

The folks that have used septic ad over the years, we we typed in our soils information. They've appeared in these boxes and and so that's why I asked the question. But it appears that we'll be handwriting these things in or or like you saying cutting and pasting, yeah.

0:36:8.738 --> 0:36:10.58

Pellegrino, Eli

Yeah, yeah.

0:36:8.758 --> 0:36:9.358

Ted Pellerin

Thank you.

0:36:10.698 --> 0:36:12.578

Pellegrino, Eli

And if you use the CAD form.

0:36:14.48 --> 0:36:21.648

Pellegrino, Eli

That we we have a version of the CAD form on the website already to download and you can play with that and you can adjust it as needed.

0:36:29.458 --> 0:36:31.98

edwin macarthur

What was that? It's nothing.

0:36:32.798 --> 0:36:33.878

edwin macarthur

Trying here.

0:36:38.88 --> 0:36:43.168

Pellegrino, Eli

I'm seeing a couple people say that the current form says consistency.

0:36:43.208 --> 0:36:46.128

Pellegrino, Eli

That is a quick typo that I can definitely fix.

0:36:47.368 --> 0:36:48.328

edwin macarthur

From my new e-mail.

0:37:3.998 --> 0:37:4.318

Pellegrino, Eli

OK.

0:37:5.358 --> 0:37:7.198

Pellegrino, Eli

Any other questions?

0:37:8.648 --> 0:37:14.88

Pellegrino, Eli

On this forum for now, including on this alternative Page 3.

0:37:14.368 --> 0:37:21.528

Pellegrino, Eli

Oh, and then also we had someone request just a more formal blank page that they could fill out and attach.

0:37:22.48 --> 0:37:24.248

Pellegrino, Eli

So this is just that.

0:37:26.648 --> 0:37:27.968

Pellegrino, Eli

Roger, I see that your hand is up.

0:37:29.708 --> 0:37:30.668

Roger St Amand

Yep. Thanks, Eli.

0:37:30.668 --> 0:37:38.988

Roger St Amand

Just a note back to Amy's question about the widths of the columns on the soil test pit logs.

0:37:39.68 --> 0:37:53.148

Roger St Amand

I did look at the CAD file and the CAD file is a little bit different I think on the CAD file and the DWG version the the column widths are the same so I don't know if there's some difference if there's a difference between the PDF and the.

0:37:39.238 --> 0:37:39.678

Pellegrino, Eli

Yeah.

0:37:53.148 --> 0:37:55.28

Roger St Amand

CAD file if I wanna get those.

0:37:55.728 --> 0:37:58.208

Roger St Amand

The same whichever way you end up going.

0:37:57.818 --> 0:37:57.938

Pellegrino, Eli

Yes.

0:38:0.578 --> 0:38:17.538

Pellegrino, Eli

Yeah, the PDF and the CAD file I think are both pulled from the Microsoft, so it could just be the way that PDF compressed everything when it when it changed the file type.

0:38:19.488 --> 0:38:20.488

Pellegrino, Eli

But I will look into that.

0:38:21.488 --> 0:38:21.888

Roger St Amand

Got it.

0:38:21.888 --> 0:38:22.688

Roger St Amand

Thank you.

0:38:28.428 --> 0:38:31.708

Pellegrino, Eli

Any other questions on the 200 before we move to the 204?

0:38:35.308 --> 0:38:40.108

Pellegrino, Eli

Will the department be returning HH two hundreds to the LPI if the installer box is empty?

0:38:40.308 --> 0:38:41.588

Pellegrino, Eli

No, we will not.

0:38:41.908 --> 0:38:46.868

Pellegrino, Eli

Most towns will submit permits to us before installation has happened.

0:38:47.628 --> 0:38:56.588

Pellegrino, Eli

This is mostly to do with payment reasons. The town doesn't want a property owner to pay and then to have that payment sitting around for like 2 years before the system is installed.

0:38:58.568 --> 0:39:2.168

Pellegrino, Eli

So the installer information and these inspection signatures.

0:39:3.688 --> 0:39:5.888

Pellegrino, Eli

We do not expect the inspection signatures to be filled out.

0:39:6.318 --> 0:39:10.718

Pellegrino, Eli

When permits are submitted to us and we wouldn't expect the installer information to be filled out either.

0:39:11.438 --> 0:39:15.678

Pellegrino, Eli

This is really more for the town and so they have that.

0:39:17.458 --> 0:39:22.858

Pellegrino, Eli

Why no soil profile categorization at bottom of profile logs?

0:39:24.838 --> 0:39:24.958

Pellegrino, Eli

Umm.

0:39:29.968 --> 0:39:30.608

Pellegrino, Eli

I don't know.

0:39:35.278 --> 0:39:35.438

Pellegrino, Eli

OK.

0:39:37.318 --> 0:39:39.318

Pellegrino, Eli

Yeah, I have the old forms pulled up.

0:39:46.608 --> 0:39:48.848

Pellegrino, Eli

Are you referring to this?

0:40:8.618 --> 0:40:9.58

Pellegrino, Eli

I don't know.

0:40:9.58 --> 0:40:10.258

Pellegrino, Eli

We will have to look at that.

0:40:11.768 --> 0:40:16.488

Pellegrino, Eli

It would have been really great if during a previous round of review, someone had mentioned that.

0:40:20.88 --> 0:40:23.208

Pellegrino, Eli

Let me sorry, zoom in a tabs.

0:40:21.568 --> 0:40:23.728

Pugh, Alex L

I can't believe I didn't see that before.

0:40:24.478 --> 0:40:29.318

Pellegrino, Eli

We have been reviewing this form for a year and it's wild how much?

0:40:30.808 --> 0:40:32.48

Pellegrino, Eli

There is to look at on this form.

0:40:35.408 --> 0:40:35.688

Pellegrino, Eli

OK.

0:40:35.688 --> 0:40:51.808

Pellegrino, Eli

I I will say right now that with the level of suggestions being put in the chat and said

that the likelihood if we were to take all of them, the likelihood of this one being released next week is.

0:40:53.568 --> 0:40:53.688

Pellegrino, Eli

Low.

0:40:55.148 --> 0:40:57.668

Pellegrino, Eli

Especially if we have to add in extra boxes.

0:40:57.748 --> 0:41:0.148

Pellegrino, Eli

So just keep that in mind.

0:41:0.148 --> 0:41:3.908

Pellegrino, Eli

We will probably be talking about it as a unit next week.

0:41:9.168 --> 0:41:10.608

Pellegrino, Eli

OK, moving on to the.

0:41:12.608 --> 0:41:13.368

Pellegrino, Eli

Yeah, I I agree.

0:41:13.368 --> 0:41:14.408

Pellegrino, Eli

It is kind of important.

0:41:14.408 --> 0:41:15.728

Pellegrino, Eli

I'm surprised that we missed that.

0:41:18.88 --> 0:41:19.288

Pellegrino, Eli

Moving on to the 204.

0:41:21.888 --> 0:41:30.488

Pellegrino, Eli

Generally pretty similar to the old one, we added a little bit more space here for describing with the variance is for.

0:41:33.368 --> 0:41:37.848

Pellegrino, Eli

And then on this page, we made a little bit more of a differentiation between.

0:41:38.478 --> 0:41:43.798

Pellegrino, Eli

Whether this is just a local variance or if it's a local and state variance.

0:41:45.808 --> 0:41:47.768

Pellegrino, Eli

And that's just putting these.

0:41:49.688 --> 0:41:50.928

Pellegrino, Eli

In separate boxes.

0:41:52.728 --> 0:41:54.488

Pellegrino, Eli

See if I can pull up the other one.

0:41:56.898 --> 0:41:58.458

Pellegrino, Eli

This is what it looked like before.

0:42:0.88 --> 0:42:9.888

Pellegrino, Eli

Where the there was a separate box for each signature. But really if you're having a state approval, both of these signatures are needed.

0:42:9.928 --> 0:42:12.288

Pellegrino, Eli

So on this new form, they're put together in one box.

0:42:14.88 --> 0:42:22.928

Pellegrino, Eli

Then this has got the same and then the big change with this form is that we've added this page back in. It used to be a part of this form.

0:42:24.688 --> 0:42:25.808

Pellegrino, Eli

In the most recent.

0:42:26.118 --> 0:42:38.798

Pellegrino, Eli

Version of this form. It was taken off and after some discussion with Brent and Alex, we decided that it was important enough to add this back in with a section.

0:42:38.798 --> 0:42:48.278

Pellegrino, Eli

Of course, for some notes, the other thing to note with this form and the 200, any references to the rules have been updated.

0:42:48.278 --> 0:42:50.678

Pellegrino, Eli

So they are now accurate.

0:42:56.438 --> 0:42:59.678

Pellegrino, Eli

So any questions about the variance form?

0:43:14.28 --> 0:43:18.628

Pellegrino, Eli

Well, then I'll open up to any other questions at all.

0:43:18.708 --> 0:43:20.708

Pellegrino, Eli

We, you know, do really appreciate your feedback.

0:43:22.328 --> 0:43:35.568

Pellegrino, Eli

And you know, This is why we wanted to do a preview form for a preview presentation for the people who are going to be using this form the most before sending out a big e-mail push to announce everything.

0:43:37.368 --> 0:43:38.808

Pellegrino, Eli

Tom, I see your hand is up.

0:43:39.188 --> 0:43:48.708

Milligan, Tom

Yeah. A couple questions. Back on the on the HPE 200, on the top of the soil logs, was that where that information is listed?

0:43:41.208 --> 0:43:41.408

Pellegrino, Eli

Mm-hmm.

0:43:44.478 --> 0:43:44.958

Pellegrino, Eli

Yeah.

0:43:50.588 --> 0:43:50.708

Pellegrino, Eli

Umm.

0:43:50.838 --> 0:43:52.918

Milligan, Tom

No, not really. I guess no.

0:43:53.238 --> 0:43:56.118

Pellegrino, Eli

You know it has some of the information, but.

0:43:54.278 --> 0:43:54.838

Milligan, Tom

No. OK.

0:43:56.368 --> 0:44:00.48

Milligan, Tom

Alright, so I guess I would agree with that comment and.

0:43:57.158 --> 0:43:57.518

Pellegrino, Eli

Yeah.

0:44:1.138 --> 0:44:1.338

Pellegrino, Eli

Mm-hmm.

0:44:1.728 --> 0:44:5.168

Milligan, Tom

Where are the? Where are the new forms online?

0:44:6.188 --> 0:44:16.108

Pellegrino, Eli

Yeah. So at the beginning, I was saying that if you Googled main subsurface wastewater, HHE 200 update.

0:44:17.528 --> 0:44:26.368

Pellegrino, Eli

You'll see these results and this link that says HHE 200 and 204 updates if you click that the forms are right here to download.

0:44:26.268 --> 0:44:27.228

Milligan, Tom

OK.

0:44:27.428 --> 0:44:33.188

Milligan, Tom

I usually go on to the municipal offices site and I didn't didn't see him there.

0:44:31.288 --> 0:44:32.48

Pellegrino, Eli

Yeah.

0:44:34.8 --> 0:44:37.408

Pellegrino, Eli

No, we haven't done a big release of the form yet.

0:44:36.848 --> 0:44:37.128

Milligan, Tom

OK.

0:44:37.568 --> 0:44:39.688

Pellegrino, Eli

We're doing kind of a soft launch.

0:44:41.408 --> 0:44:48.688

Pellegrino, Eli

So that we could get any questions or do any tweaks before really doing a big push to get it out.

0:44:47.978 --> 0:44:48.138

Milligan, Tom

OK.

0:44:49.338 --> 0:44:50.298

Milligan, Tom

Great. Thanks.

0:45:10.848 --> 0:45:18.328

Pellegrino, Eli

I don't see any other questions in the chat and I don't see any other hand raised so.

0:45:19.968 --> 0:45:27.128

Pellegrino, Eli

Give a couple seconds in case anybody else has a question, but otherwise we wrap up a little bit early today.

0:45:35.628 --> 0:45:35.988

Pellegrino, Eli

All right.

0:45:36.28 --> 0:45:37.668

Pellegrino, Eli

Well, thank you all very much for attending.

0:45:37.668 --> 0:45:43.948

Pellegrino, Eli

I really do appreciate your feedback and we want to make this forum as good as it can be for you.

0:45:44.668 --> 0:45:55.348

Pellegrino, Eli

So thank you very much and the as a reminder, the AutoCAD walkthrough is tomorrow from 1:30 to 2:30.

0:45:55.348 --> 0:46:1.268

Pellegrino, Eli

That is mostly going to be led by my coworker Josh, but I will also be there.

0:46:1.968 --> 0:46:5.448

Pellegrino, Eli

Just to kind of help set up, so if you have any other questions, you can ask them tomorrow.

0:46:11.808 --> 0:46:12.728

Pellegrino, Eli

Thank you very much.
