

Maine CDC Children & Youth with Special Health Care Needs

Mission: Improve the health and quality of life for children with special health care needs and their families.

Goal: Assist families and providers in finding services that will help the child or youth acquire optimal health, development, well-being, and the best quality of life.

Children and Youth with Special Health Care Needs are children birth to age 21 who have or are at increased risk for a chronic physical, developmental, behavioral, or emotional condition AND who also require health and related services of a type or amount beyond that required by children generally.
