High Value Plant & Animal Habitats Old Orchard Beach

This map is nonregulatory and is intended for planning purposes only

- Organized Towns**
- Unorganized Towns**
- Rare, Threatened, Endangered Animals**
 - Endangered, Threatened, Special Concern Species Habitats**

Species occurrence and/or the associated habitats based on species sightings.
- Rare or Exemplary Plants and Natural Communities**
 - Rare, Threatened, or Endangered Plants**

Symbol proportional to number of known occurrences based on field observations.
 - Rare and Exemplary Natural Communities**

Mapped features are based on field surveys and aerial photo interpretation.
- Essential Wildlife Habitat**
 - Roseate Tern, Piping Plover & Least Tern**

Nesting, feeding, brood & rearing sites. Areas are identified based on species observations and confirmed habitat use.
- Significant Wildlife Habitat**
 - Deer Wintering Area**

Forested area possibly used by deer for shelter during periods of deep snow and cold temperatures.
 - Inland Waterfowl and Wading Bird Habitats**

Freshwater breeding, migration, feeding, and wintering for inland waterfowl and wading birds.
 - Shorebird Areas**

Coastal staging areas that provide feeding habitat like tidal mud flats or roosting habitat like gravel bars or sand spits for migrating shorebirds
 - Seabird Nesting Island**

An island, ledge, or portion thereof in tidal waters with documented, nesting seabirds or suitable nesting habitat for endangered seabirds.
 - Tidal Waterfowl and Wading Bird Habitats**

Breeding, migrating/staging, or wintering areas for coastal waterfowl or breeding, feeding, loafing, migrating, or roosting areas for coastal wading birds.
 - Significant Vernal Pools**

Surveyed pool depressions used for breeding by amphibians and other indicator species and that portion of the critical terrestrial habitat within 250 ft of the spring or fall high water mark.
