and Agent Services

Introduction

Today we are presenting a high-level overview of the Pine Tree Plate to you. This includes what plates are being converted, inventory and distribution, a project timeline, and more.

Table of Contents

01 The Big Picture

Breaking down why we are beginning a general issuance.

02 The Issuance

How this whole thing is going to work as rubber hits the road.

03 Manufacturing

How we're doing it, and how it's getting to you.

04 Next Steps

Where we plan to take things from here.

A person is seen from behind, looking at a wall covered in various project charts, diagrams, and documents. The person is wearing a grey and black striped sweater. The background is a wall of project-related content, including flowcharts, diagrams, and text. A blue arrow points from the left towards the text.

01 The Big Picture

A blue arrow points from the left towards the text.

A project like this needs all of us to work together for our fellow Mainers.

Our Mandate Begins

In 2023 our State Legislature amended the law, **requiring the BMV** to issue a replacement to all Chickadee plates starting May 1, 2025.

Many Chickadee plates are:

- Old,
- In disrepair, and
- Have lost their reflectivity.

Not Your Average Project

Over 1,200,000 - - - - ->

The number of Chickadee plates that are going to be replaced during the issuance.

1,682,405 - - - - ->

The number of registered vehicles in Maine on January 1, 2024 alone.

The Big Numbers

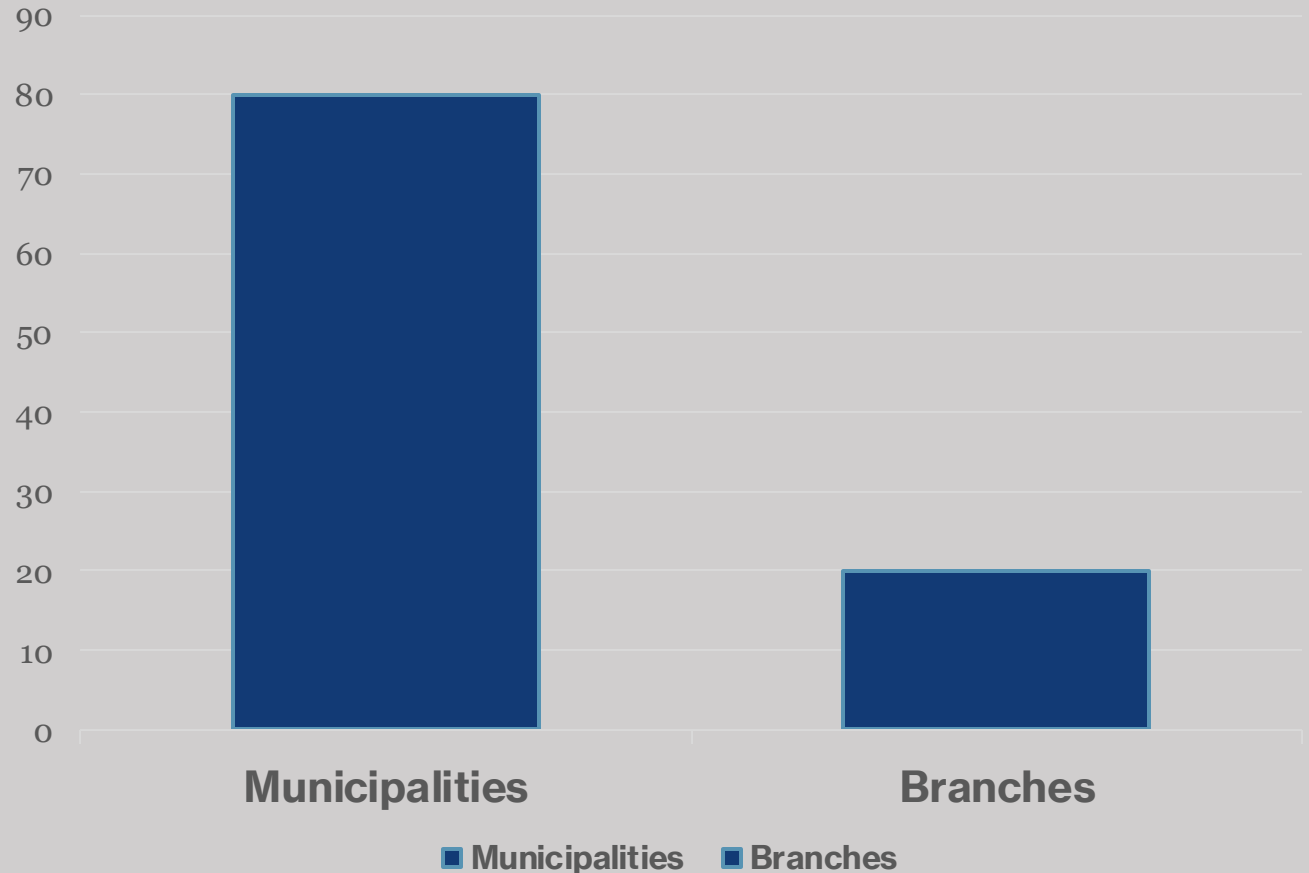

This data shows over 71% of all license plates in Maine are going to be replaced during a **one-year span.**

You Are Our Foundation

If you lined up **ten people** who issued registrations, **eight** of them would work in **Municipalities or as Agents.**

Percentage of Registrations Issued

Our Communication Plan

1

Session One

Held in January 2024 to introduce the plan and obtain feedback.

2

Session Two

Happening right now, meant to give you a high-level plan.

3

Session Three

In-depth details coming to you January 2025.

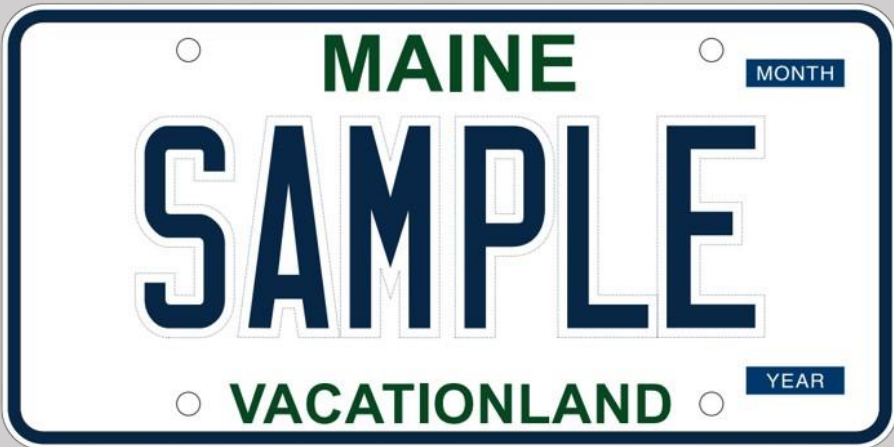

02 The Issuance

→ And so, it begins.

Let's See Those Plates Again

Pine Tree Plate replacing the Chickadee as the new general issue plate.

No Tree Plate is an alternative option for the **PC Class Code only.**

What's the Big Deal?

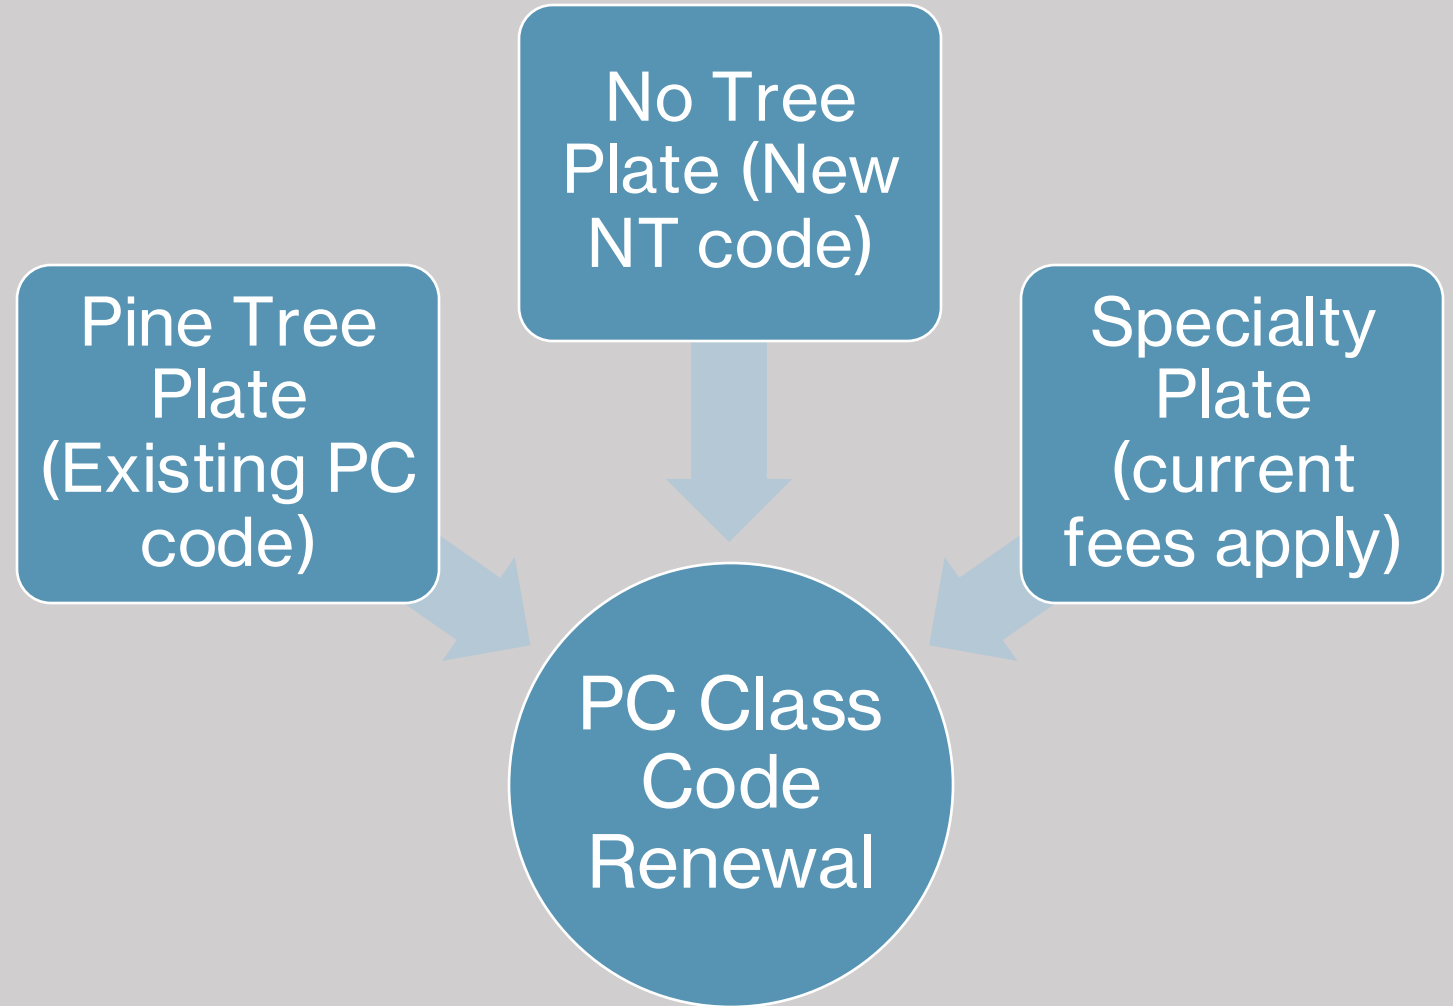

So, what is the difference when it comes to a license plate reissuance?

When it begins on May 1, 2025, not a single Chickadee plate **of any kind** will be issued from that point forward.

PC Class Code Registrants

When new registrations or renewals in the **PC class code** arrive, they have a few choices.

What You'll Carry

During the issuance, all cooperating New and Truck Municipalities **must carry** some plate classes outside of their typical authorization level.

The BMV has been working with third party vendors (TRIO, MUNIS, Northern Data) to support these changes.

What You'll Carry

For plate classes you do not typically carry, issuance is intended for renewals to facilitate a switch from Chickadee to the Pine Tree plate.

The New and Truck Authorization Level means you carry these classes:

- PC
- NT
- AQ
- CM
- CO
- CV
- DX
- FM
- MH
- SE
- TR
- TT
- SM

Plate Type	Class Code	New and Truck	Notes
Passenger Car	PC	Yes	
Passenger No Tree	NT	Yes	New Class Code
Antique	AQ	Yes	
Combination	CM	Yes	
Commercial	CO	Yes	
Custom Vehicle	CV	Yes	
Disabled	DX	Yes	Now issued by towns
Farm	FM	Yes	
Motor Home	MH	Yes	
Special Equipment	SE	Yes	
Tractor	TR	Yes	
Tractor Trailer 800 Series	TT	Yes	
Special Mobile Equipment	SM	Yes	New Class Code
Bus	BU	No	Not issued by any towns
Horseless Carriage	HC	No	Not issued by any towns
Lowspeed	LS	No	Not issued by any towns
Street Rod	SR	No	Not issued by any towns
Hire	TX	No	Not issued by any towns

Let's Visualize It

→ New Numbering Sequences

Starting May 1, 2025, as per the New Plate Issuance Project, new numbering sequences will be added to all plates with the Pine Tree design.

These numbering sequences will not duplicate any current sequences.

This does not apply for the DX, PC, and TT class codes.

Let's Visualize It

Plate Type	Class Code	New Sequence
Passenger Car	PC	No new sequence (101-JAA through 999-ZZZ)
Passenger No Tree	NT	No new sequence (101-FAA through 999-FZZ)
Antique	AQ	101-CAA through 999-CAZ
Bus	BU	101-CBA through 999-CBZ
Combination	CM	101-CCA through 999-CCZ
Commercial	CO	101-CDA through 999-CDZ
Custom Vehicle	CV	101-CEA through 999-CEZ
Disabled	DX	No new sequence (1 through 99999; 1A through 999Z; 1AA through 99ZZ)

Let's Visualize It

Plate Type	Class Code	New Sequence
Farm	FM	101-CFA through 999-CFZ
Horseless Carriage	HC	101-CGA through 999-CGZ
Lowspeed	LS	101-CHA through 999-CHZ
Motor Home	MH	101-CJA through 999-CJZ
Special Equipment	SE	101-CKA through 999-CKZ
Street Rod	SR	101-CMA through 999-CMZ
Tractor	TR	101-CNA through 999-CNZ
Tractor Trailer 800 Series	TT	No new sequence (800-001 through 899-999)
Hire	TX	101-CPA through 999-CPZ
Special Mobile Equipment	SM	101-BSA through 999-BSZ

Plate Number Reservations

Registrants who would like to keep their current Chickadee plate numbers may reserve their plate for a \$25 one-time-fee.

Registrants who have an active vanity, low digit, and National Guard (PC Class Code) **must reserve their plates** if they would like to keep their current plate number.

Plate Number Reservations

A license plate number can be reserved in **four different ways**.

Reserve plate questions may be directed to platereserve.bmv@maine.gov

Plate Number Reservations

Option One

Online through a standalone reservation portal (maine.gov/online/reservemyplate).

Option Two

They will be prompted if they use the Rapid Renewal website.

Plate Number Reservations

Option Three - - - → Going into a BMV branch office.

Option Four - - - → Mailing in a Reserve Plate Application (MV-62) to the BMV Administrative Office.

MVR-3E Layout

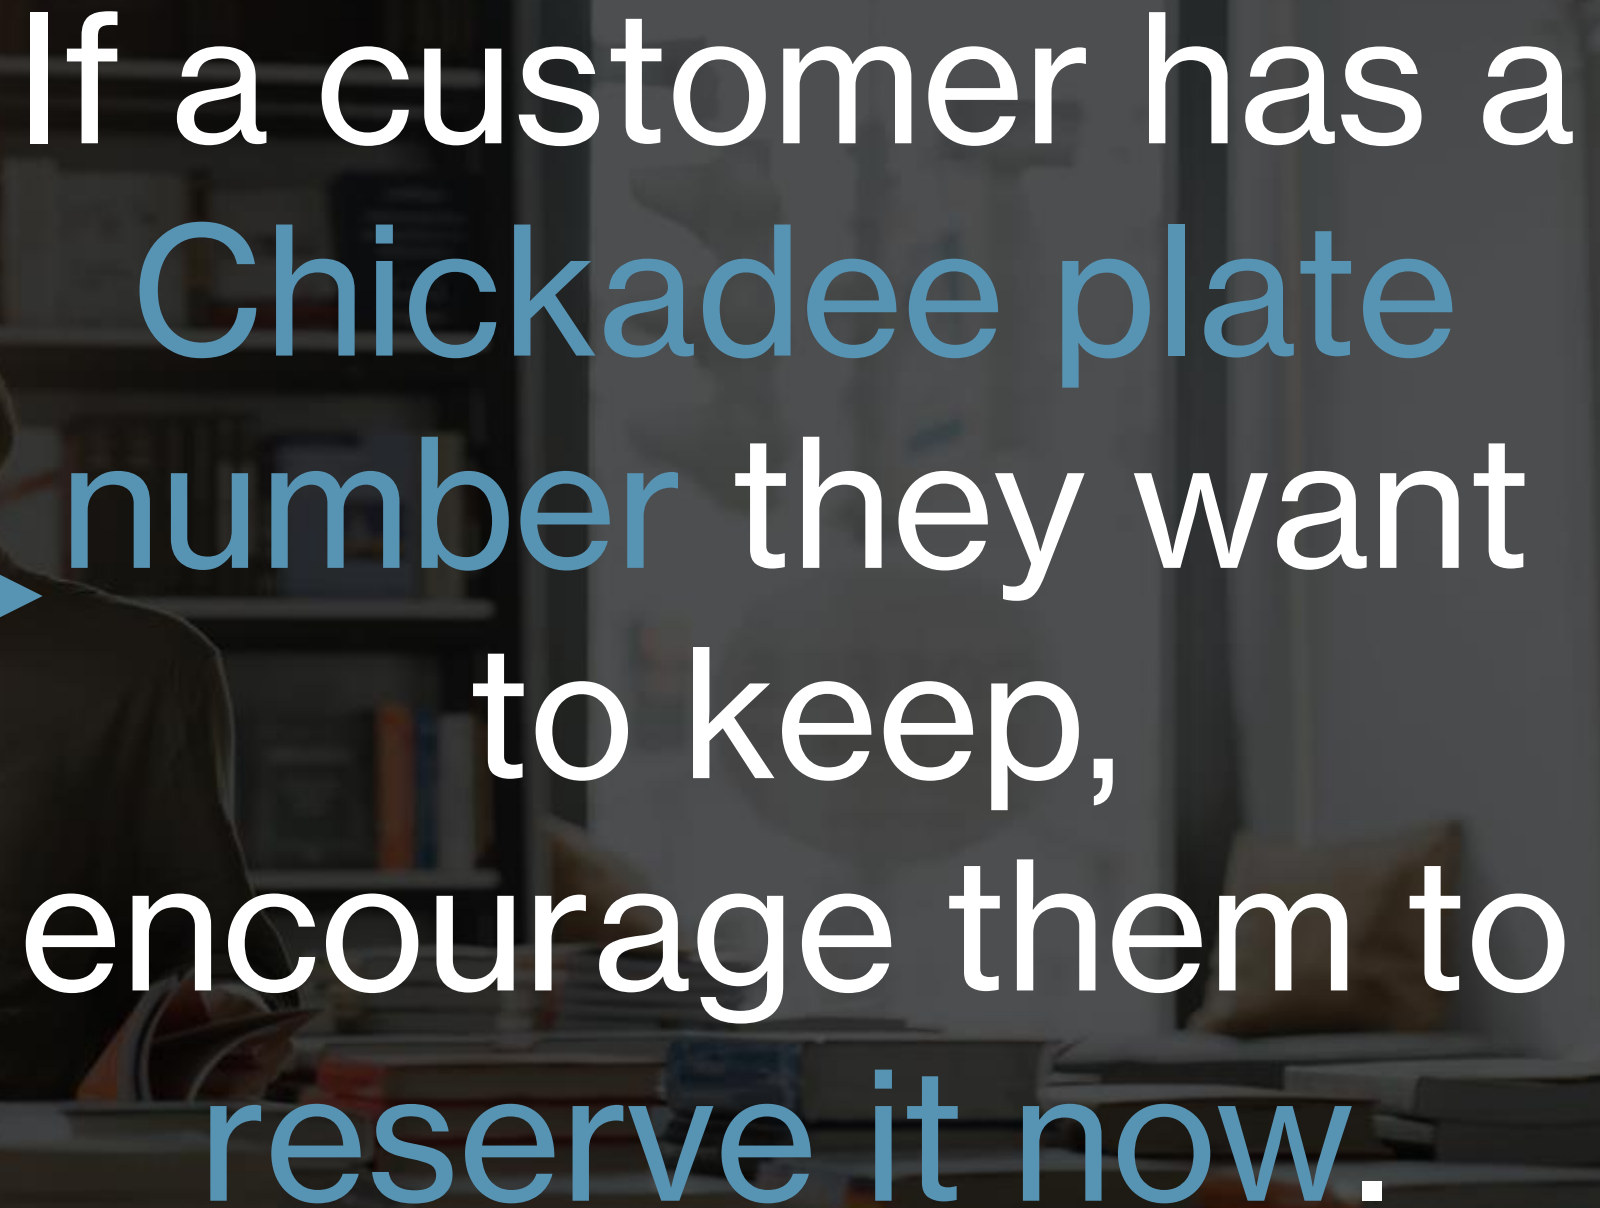

Insurance:		
STYLE	TIRFS	AXLFS
4D		
Base		42.200
Mil. Rate		0.0040
Local		
Ex Tax		168.80
ExTx Bal		168.80
ExTx Date	01/24/2024	
Fees		35.00
Agent Fee		5.00
-RESRV # FEE PD		
-PC 1818AL		
-4 29480063		

The MVR-3E layout will be modified to reflect the reservation information BMV will be exporting so data flows smoothly to towns.

If a plate is reserved, it will populate an “R” reservation flag for that record. Otherwise, it will be blank.

Electronic Registrations will print the “Print Priority” phrase as “RESRV # FEE PD” on any registration completed that has the “R” reservation flag set for that record in the delta/preprint file data export from BMV.

A woman with glasses is talking on a mobile phone in a library. She is standing behind a desk with stacks of books. The background shows bookshelves filled with books. The text is overlaid on the right side of the image, with a blue arrow pointing from the left towards the woman.

If a customer has a
Chickadee plate
number they want
to keep,
encourage them to
reserve it now.

→ Tractors and Special Mobile Equipment

Starting May 1, 2025, BMV is adding a new class code for Special Mobile Equipment.

Tractors and Special Mobile Equipment

1

Road Tractor

Designed and used primarily for drawing other vehicles, but not constructed to carry any load.

(Existing Class Code – TR)

2

Farm Tractors and Homemade Tractors

Used primarily as a farm implement for drawing plows and mowing machines.

(Existing Class Code – TR)

3

Special Mobile Equipment

Every self-propelled vehicle not designed or used primarily for transportation or property, but which are operated over the highway.

(New Class Code – SM)

Tractors and Special Mobile Equipment

Special Mobile Equipment (SM) - - -

First-time issuance of the SM plates will be allowed from BMV branch offices and cooperating municipalities with the New or Truck level authority.

Municipalities will be able to renew special mobile equipment registrations.

Vanities, out-of-rotation plates, and low digit plates will **not be allowed** in the SM class code.

Due to the new Special Mobile class code, plate reservations are only allowed for tractors. These must be manually done, with forms sent to the BMV Administrative Office, Registration section for approval.

An aerial view of a warehouse interior. The scene is filled with high industrial shelving units on both sides, densely packed with cardboard boxes and some red and white striped buckets. In the center aisle, two workers in high-visibility jackets and caps are walking towards the camera. Another worker is visible in the lower right, looking at a handheld device. A green line with arrowheads at both ends is drawn across the image, framing the title and the subtitle. The overall lighting is somewhat dim, typical of an indoor industrial space.

03 Manufacturing

A discussion on inventory, distribution,
and recycling.

How We're Getting It Done

In accordance with Public Law, c. 421 the BMV must replace the Chickadee plates.

The manufacturing shop in Warren, Maine cannot accomplish this. Waldale Manufacturing, based in Nova Scotia, was awarded this task.

Plate production begins in January 2025.

→ Some Things Change

- Plates are shipping **directly from Waldale** to their final destinations.
- Municipalities and branches **will not submit requests** for Pine Tree and No Tree plates on the MV-51 form.
- The quantity of plates each municipality, non-governmental agency, or branch needs is determined by **2023 actual new and renewal registrations.**

→ Some Things Change

- Waldale knows the 2023 actual new and renewal registration numbers and will send each location what they need for each month.
- The quantity for the first delivery covers inventory for **both May and June.**

Some Things Change

This is only true for class codes with the Pine Tree or No Tree graphics.

All other class codes must still be requested via the MV-51 form submitted to the BMV Stockroom **as per usual.**

Others Stay the Same

While many things will change during the New Plate Issuance, there will be those that don't.

You will still:

- Get plates shipped via UPS,
- Receive plates in packaged boxes, and
- Use the same process for incorrect quantities, class codes, or sequences.

The Big Day

Shipments will be sent from Waldale starting March 1, 2025, so everyone has their plates by April 1, 2025, one month ahead of the new issuance.

The issuance begins on May 1, 2025, and due to statute, the new plates **must not be issued** before May 1, 2025.

→ Taking Time to Recycle

In line with LD29A, BMV recognizes registrants may keep their old plates.

BMV's Administrative Office will plan for picking up and recycle returned and unissued Chickadee plates that remain.

→ Highlighting Something Important

We encourage you to reach out and tell us how your town and residents currently handle old plate inventory.

You can send that information to npistockroom.bmv@maine.gov

A woman with long reddish-brown hair, wearing a dark sleeveless top, is shown in profile from the chest up, writing on a whiteboard with a blue marker. The whiteboard has the word 'FEEDBACK' written in large, bold, capital letters. Above it, there are some faint, handwritten notes and arrows. The background is dark and slightly blurred. A red horizontal line with an arrow pointing to the right is positioned above the main title.

04 Next Steps

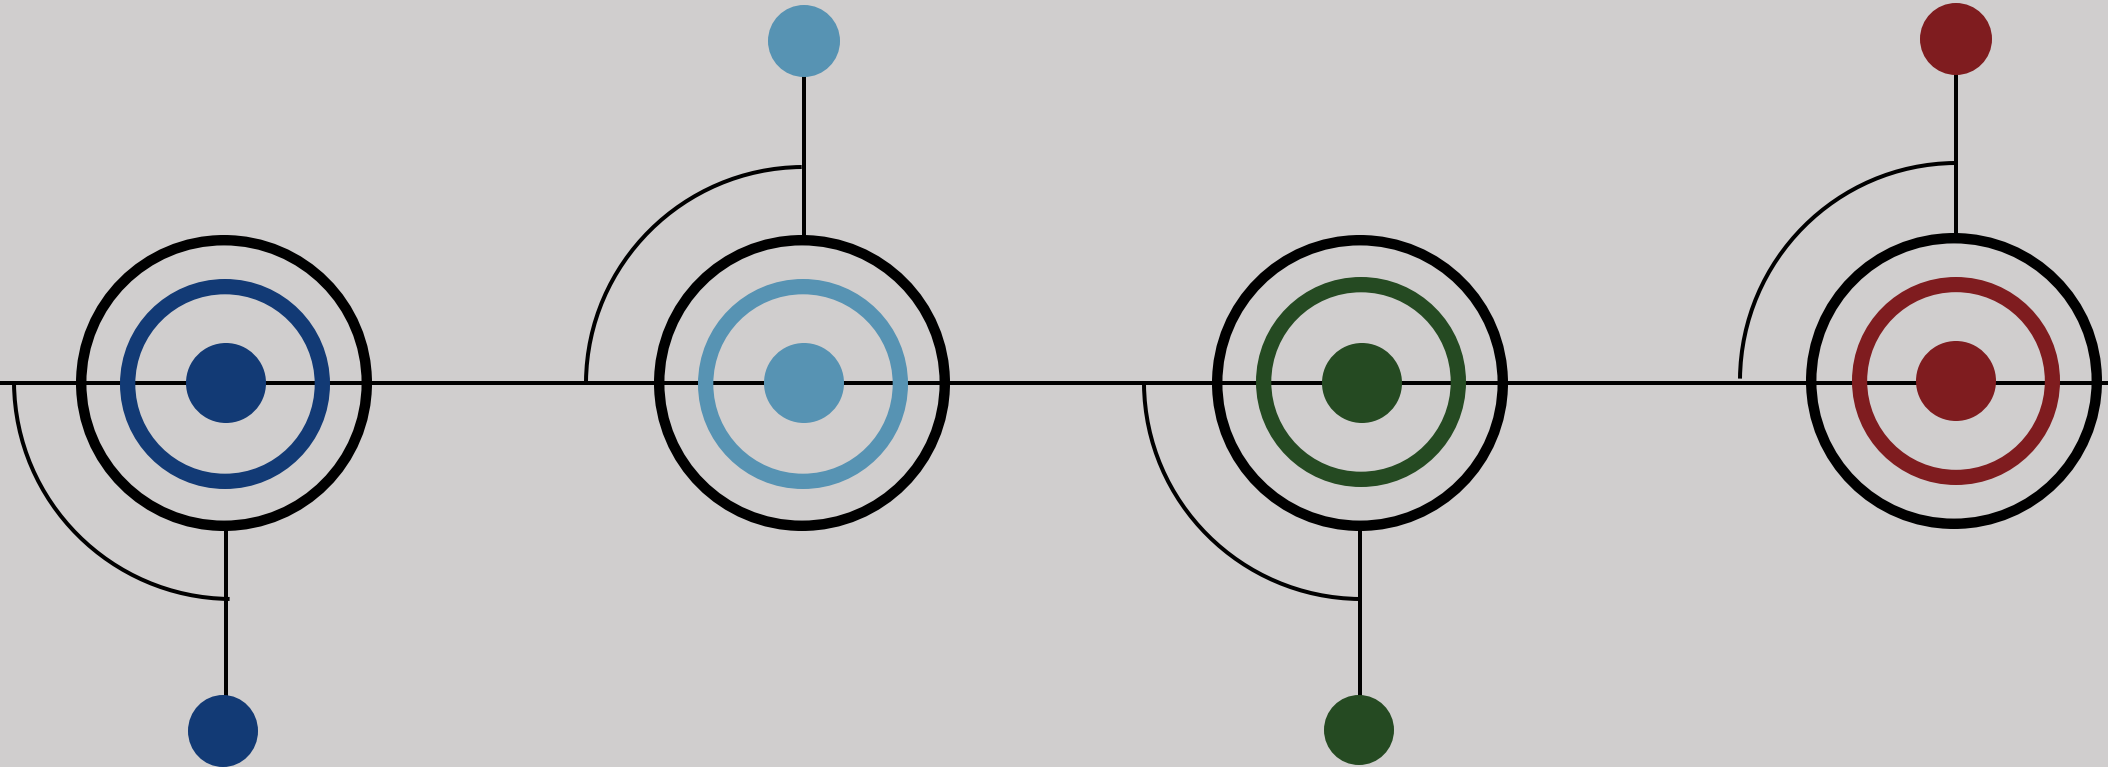

A red horizontal line with an arrow pointing to the right, positioned below the main title and above the text.

The work doesn't end here, not even close.

→ October 2024 – December 2024
